Weather

Fine and cool. The maximum temperature yesterday was 79.7 and the minimum 59.0, the figures for the corresponding day last year being 78.4 and 59.5.

TOKIO PRESS ANGERED BY RUSS DEMAND AT PARLEYS

Lack Of Sincerity Is Seen In Raising Saghalien Issue

HINT AT FIASCO

Japan Will Be Forced To End Conference, Prediction

(Eastern News Agency)

Tokio, Sept. 21.—Apropos of the deadlock to which the Changchun conference has once again been brought and which has been caused by the question on the presence of Japanese troops in Saghalien, various newspapers here today express an unusually unanimous attitude.

They assert that at this time, when the greater part of the draft agreement has been discussed and agreed upon, the fact that the Russian delegates, by unexpectedly bringing forth a problem of such a nature, which could be deliberated upon at a future opportunity, have brought the conference to a standstill, thus causing doubts if they have any sincerity to carry out the conference successfully.

Unless the Russian delegates change the attitude, the newspapers says, they have maintained since the opening of the present conference, there can be no alternative for Japan but to close the negotiations.

Swatow Benefit Bill Again To Be Staged At Olympic Tonight

With a melange of melody and mirth provided by a combination of amateur and professional talent the first of two entertainments in aid of the Swatow Relief Fund was presented last night before a large audience at the Olympic theater. The program, every number of which was encored last night, is to be repeated tonight.

Among the recruits from the ranks of professionals giving their services are Miss Diane de Brett who formerly was well-known on the stage in London, Mme. Kelvey, Miss Ireue Gray, Miss Carolyn Mason and Miss Elvira Petty of the Summer Follies, the Louisiana Trio and the Four Lanzoffs.

Among the amateurs appearing are The Silas Brothers, (The Three Ticklers) and Mr. Cameron in a piano novelty, Miss Dorothy Kelvey and Mme. Kelvey's juvenile dancers, Miss Richard Dixon, Mr. C. H. Kortwright and Mr. A. H. Shenn at the piano. The program includes twelve numbers, each of which scored a hit last night.

Magistrates Honor American Assessor Who Sails Shortly

As a tribute to Mr. J. E. Jacobs, American Assessor of the International Mixed Court who is going to America shortly on leave, the five Chinese Magistrates of the Mixed Court, who are Magistrates Kwan, Yui, Li Tsang and Loh are to present him with a handsome silver loving cup carrying the inscription in five Chinese characters, "We Wish Your Early Return." The names of the five Magistrates headed by Senior Magistrate Kwan also are inscribed on the cup.

Mr. Jacobs is to sail on October 4 and will be away on leave for four months. His period of service for the American Government in China goes back to December of 1915 when he was appointed student-interpreter of the Legation at Peking. He became vice consul at Foochow in June of 1917 and in April of the following year was transferred to the American Consulate here.

STRIKE IN INDIA

(Reuter's Service)

Calcutta, Sept. 20.—A report from Jamshedpur states that the employees of the Tata Iron and Steel Works, dissatisfied with their wages, struck today without warning.

Deaf Mute Fire Patrol Chief

Howard C. Kepner

HOWARD C. Kepner, of Tyrone, Pa., although a deaf mute, has won wide recognition as a fire patrol chief. As a boy he was a fire "buff" and for the last nineteen years has been in the Fire Department of Mifflin and Tyrone. Instead of bells to summon him to a fire he has an electric light system—different colored lights representing the box numbers and alarms.

JAPAN BUYING LUMBER FREELY INWESTERN U. S.

All Efforts To Beat Quotations Down Prove Failure

(Reuter's Service)

New York, August 23.—The Journal of Commerce today publishes a letter from Vancouver, B. C., dated August 12, which states:

As evidence that Japan is rapidly recovering from the recent depression which prevented lumber buying by that country the purchasing this week of Jap squares and cedar logs has advanced to a volume where it is impossible for the British Columbia brokers to secure their lumber in Canada and they are now placing orders for Jap squares at various points on the Washington and Oregon coast.

Shipping cedar logs to Japan reached a very large volume last spring, but when that country experienced a stringency period, during which considerable liquidation was necessary, log shipping as well as lumber orders fell off to practically nothing. The return of the Nippon buyers to this market for both Jap squares and cedar logs is hailed with delight by lumber brokers and when the sawmills are certain of their log supply the brokers' pleasure will be shared by the manufacturers.

All attempts by the Japanese to bear the lumber market here for the past three weeks failed with the result that they have entered trade again at peak prices which give Jap squares at about $23 for large timbers.

Several parcel lots of lumber have moved to China recently and companies with yards in the Far Eastern Republic are shipping future requirements, believing that China will buy more lumber in the next year than ever before.

Dr. Koo Relieved Of Finance Job

(Reuter's Pacific Service)

Peking, Sept. 21.—A mandate issued last night relieves Dr. Wellington Koo of the concurrent post of Chairman of the Financial Commission. Mr. Chang Ying-hua will succeed him as Chairman

Another mandate appoints Mr. Yen Chu, Vice-Minister of Finance, Chief Inspector of the Salt Administration.

Mr. Lo Wen-kan assumed duties as Minister of Finance yesterday. Mr. Yu Chi-chang also assumed duties as Acting Chief Justice of the Supreme Court.

General Tsao Kun has telegraphed to the President expressing approval at the Cabinet.

FIRE IN BUKHAREST

(French Wireless through Reuter)

Paris, Sept. 20.—The electrical works at Bukharest have been destroyed by fire.

Pan-Pacific Envoy Sails, Says Many Will Attend Conference At Honolulu

South China And Philippines Sending Delegates To Meeting, Says Alexander Hume Ford, Leaving After Far Eastern Tour

"South China expects to be well represented at the coming Pan Pacific Commercial Conference in Honolulu, and the Philippine Government is sending several delegates," was the statement made on the arrival of the President Cleveland by Alexander Hume Ford, Director of the Pan Pacific Union.

Mr. Ford left Shanghai two weeks ago on the Cleveland after arranging in Shanghai for delegates to the Commercial Conference.

"I spent two days in Manila," said Mr. Ford, "a day in Canton and a day in Hongkong, but it was sufficient to get the message over," added the Director of the Pan Pacific Union.

"On my arrival in Manila, Governor-General Leonard Wood greeted me cordially and assured me that his government intended sending a delegate from the Department of Commerce and Industry and one from the Department of Agriculture and National Resources. The Governor General and other high officials will write papers. I reminded Senators Quezon and Osmena of our meeting in Washington and their assurance of delegates to be sent from the Independence fund and it is likely that out of this fund the expenses will be paid of a delegate from the Commercial College of the Philippines and one from the Philippines Chamber of Commerce. The American Chamber and the Rotary Club of Manila also expect to send delegates

"In Canton I was met by two delegates to the Pan Pacific Conference and called on the Governor of Kwangtung, a Honolulu born Chinese, a brother of the Afong Sisters. We also called on the leaders of the Canton Chamber of Commerce and expect at least two delegates. Dr. C. C. Wu was to have sailed with us to Shanghai but was delayed at the last movement. He too hopes to attend the Commercial Conference as a delegate.

"It now remains to see how many delegates will attend from Shanghai and the North. Mr. H. Y. Moh is still in Peking. I believe several delegates will accompany him. I sincerely hope that great populous China will have as many delegates at the Conference as energetic Japan which commonly expects to send fifteen delegates. It is a great opportunity for laying a foundation for future co-operative effort about the Pacific and I trust that China will be well represented."

Mr. Ford conferred with a number of leading Chinese in Shanghai and resumed his voyage to Honolulu on the Cleveland. The conference begins on October 23. It is expected that a hundred of the key men in matters of commercial and finance will attend. Several of the Pacific Governments are sending leading dignitaries and a number of Pacific coast Chambers are sending delegations led by their Presidents. Both Chinese and American Chambers in the Orient should be represented at this important gathering.

UPSET STATE OF POLITICS PROVES DRAG TO TRADE

Possibility Of New War Between Chang And Wu Is Drawback

Business conditions in China during August continued to remain exceedingly dull, says the Chinese American Bank of Commerce report. This is to be ascribed not so much to the echo from trade depression abroad, as to the alarming political situation within this country. The fighting last May between Wu Pei-fu and Chang Tso-lin has done an enormous amount of harm to legitimate commerce. Unfortunately it appears that the outcome is not likely to be accepted by the loser as final. There are clear signs that preparations are proceeding by both adversaries for a renewal of hostilities on a larger scale. Very serious fighting has been going on during the month in Szechuen with the sole object of deciding who of two rival generals is to have supremacy. Honan and Hunan Provinces are suffering from incessant feuds and from very serious depredations committed by robber bands, alias unpaid soldiers. In Manchuria the Hunghutze element has become much more bold than in former years. Enormous loss to life and property was caused by the typhoon at Swatow and along the coast of Chekiang Province.

Add to this the very precarious position of the Peking Government and its chronic shortage of funds, and it becomes surprising that conditions all over the country are not much worse than one actually finds them.

To speak of any article, either imports or exports, which called for special mention during the month under review, would be very difficult indeed.

Thanks to very active silk trade at Lyons there was a fair amount of business during August in raw silk from China. The unfavorable rate of exchange for Francs prevents the assumption of trade on a much larger scale. We observe a tendency on the part of French importers of China produce (other than silk) to have shipments financed by drafts drawn in Sterling instead of in Francs.

As large shipments of old metals (shipyards scrap, etc.), continued to arrive here during August, it appears that the market is well provided for some time to come. Orders for wire nails and steel products continue to be placed, however, though not for large sums.

On account of the extended coal strike in America many inquiries for supplying coal to the States have reached this country. Practically all coal mines in China are situated in the interior of the country, and as the railroads are not able to transport more coal than is needed for consumption within the country, there was no possibility of filling orders from abroad, at short notice.

The cotton crop in various districts of China has been slightly damaged by the typhoon at the end of August, but nevertheless promises to turn out very well indeed. The cotton spinning industry continues to struggle against odds, the cost of production being in most cases below cost. There is every reason to believe that this stage is only transitory. Stocks of yarn are not excessive.

Sees No Menace To Lancashire Mills

(Reuter's Service)

London, Sept. 20.—Commenting on the International Cotton Federation's statistics, which have just been published, Sir Charles Macara says that they show that India, China and Japan have roundly only 12,000,000 cotton spindles for their combined populations of 800,000,000 while the same number of spindles is needed to supply the requirements of Great Britain and Ireland. The installation of these spindles in India, China and Japan cost double what it would cost to erect them in England and the machinery is mostly employed in making coarse goods which Great Britain does not cater for. Moreover, these countries have taken nearly 100 years to attain their present spindleage and it is incomprehensible therefore how they can be regarded as serious competitors with Lancashire. The present difficulties in the cotton trade, he concludes, are not due to foreign competition but to want of foresight and lack of organisation in the industry during and since the war.

DINNER TO ALSTON

(Reuter's Pacific Service)

Peking, Sept. 21.—The Waichiapu is giving a farewell dinner to Sir Beilby Alston, the British Minister, this evening and the Anglo-Chinese Society on September 25. Numerous other entertainments have been arranged.

NEW CHAIRMAN

(Reuter's Pacific Service)

Peking, Sept. 21.—Mr. Tsai Yuan-pei was elected Chairman of the Educational Conference yesterday. The Minister of Education gave a reception to the delegates after the opening of the Conference.

Can These Men Save Ireland?

GEORGE Gavan Duffy, Foreign Minister in Michael Collins's Cabinet; Richard J. Mulcahy, romantic boy Defense Minister, and William T. Cosgrave, Home Minister, have been selected as a triumvirate to attempt to save Ireland, following Collins's assassination. It is believed Duffy will shape the political policies, Mulcahy the military policies and Cosgrave the administrative policies of the Irish Free State. General Owen Duffy, Commander of the Southwestern Division and principal aide to General Richard Mulcahy, it is thought, will be selected to succeed Collins as Commander-in-Chief of the Free State Army.

LA FOLLETTE IS VICTOR AT POLLS IN WISCONSIN

Entire State Ticket, Headed By Senator, Wins Easily

(China Press Service)

Madison, Wis., Sept. 19.—Senator Robert M. LaFollette has been renominated by an estimated majority of 175,000, the largest vote ever given any Republican candidate in Wisconsin. The entire LaFollette state ticket, including Governor John J. Blaine, was also nominated by majorities almost as large.

Senator LaFollette was bitterly opposed by the Anti-Saloon League and his attitude in national questions and especially his war record was attacked. He was opposed by Dr. W. A. Canfield, president of Carroll College.

The LaFollette ticket assailed the Esch-Cummins railroad law, of which Congressman Esch of Wisconsin was the House sponsor, the Fordney-McCumber tariff, the present foreign policy of the Administration, and the ship subsidy. La Follette stood for the soldier's bonus, the prohibition of child labor and more radical national measures.

Community Church Young Folks Going To Wusih Tomorrow

The young people of the Community Church are planning a trip to Wusih for tomorrow afternoon. The train leaves North Station at 12:30 and the party plan to return on the train reaching Shanghai at 10:00 p.m. There will be a special car which the party will have through the afternoon, so that luncheons and wraps may be left in it while a tramp is taken through the beautiful hills about Wusih under direction of Mr. Vanderbeek.

A hearty invitation is especially extended to newcomers to Shanghai to join the pilgrimage and get a view of something of China beyond Shanghai. Basket luncheons should be taken. Two dollars is expected to cover the entire cost of the trip for each person. Arrangements have been made for group entertainment while on the train.

SENATE FAILS TO PASS BONUS OVER HARDING'S VETO

House Overrides Executive But Upper Chamber Saves Him

(China Press Service)

Washington, Sept. 20.—Under the guns of a wildly excited gallery the Senate, today, failed to pass the Bonus Bill over the President's veto. The vote was only a little short of the necessary two-thirds.

The House of Representatives passed the Bonus bill by a vote of 258 to 54 or 50 votes more than two-thirds of the membership. The House also passed a bill to aid former employees of navy yards who have been struck from the payrolls because of the disarmament treaty. It grants annuities to all over 55 years of age who have been with the Department for 15 years or more.

The House passed and sent to the Senate a resolution to adjourn Friday.

Columbia Club Dinner Dance Saturday Night

The regular bi-weekly dinner dance will be held at the Columbia Country Club next Saturday night, dinner to be served at 8:30 o'clock.

The House Committee has announced that the third Jinks fancy dress masquerade will be held at the Club on Saturday evening, October 7. Applications for tickets should be in the hands of the secretary not later than October 3.

Overdue Steamers Arrive At Manila

(Reuter's Pacific Service)

Manila, Sept. 21.—The steamers, Loongsang from Hongkong and the Susana II from Amoy, two days overdue, have arrived safely. The Japanese steamer, Kiso Maru, bound from Saigon to Kobe broke her propeller shaft in the China Sea 200 miles south of Manila. Her S. O. S. signals brought the Atsuta Maru to her assistance. The Kiso Maru will probably be towed to Hongkong by the Atsuta Maru. The Kiso Maru is owned by the Tokio Steamship Company and was engaged in coal carrying.

KEMALIST AGENT SAYS TURKS ARE DETERMINED TO CROSS DARDANELLES

Will Enter Thrace, But "Will Not Fire On Allies Unless First Attacked," Hamid Bey Tells British Correspondent At Constantinople

TURK CAVALRY NEARER THE BORDER

France And Italy Announce Intention To Conference Of Ministers In Paris To Withdraw--Curzon Trie In Vain To Hold Them To Treaty Stipulations

(Reuter's Service)

Constantinople, Sept. 21.—Hamid Bey, the Kemalist representative here has informed a British correspondent that the Turks intend to cross the Dardanelles and enter Thrace but will not fire on the Allies in crossing unless first attacked.

London, Sept. 21.—Messages from Constantinople state that the Turkish cavalry are being strengthened on the boundary of the Asiatic neutral zone while a large force of infantry from Smyrna has occupied Balikesari, 75 miles from Brussa. There are three divisions near Panderfa. An exodus of alarmed Christians has begun from Constantinople.

Paris, Sept. 21.—An account of the proceedings of the Conference of Foreign Ministers yesterday is contained in a semi-official statement which says that Lord Curzon expressed great astonishment at the fact that while the British have decided to reinforce the troops at Chanak, France and Italy have resolved to withdraw their contingents from the south side of the Sea of Marmora. Lord Lord Curzon considered the French and Italian decision as hardly conforming with the agreements of 1915 and 1918 providing for partial inter-Allied occupation of Turkish territory.

M. Poincare regarded the agreements at present as inapplicable as no conflict was feared when the allocation of troops was provided for under them. He added that the French opinion did not permit French troops to act with the Greeks and argued that if Chanak were held the whole southern shore of the Sea of Marmora ought to be equally occupied. M. Poincare further pointed out the military objection of the Allies fighting with their backs to the Sea and pointed out the undesirable effect upon the Islamic world if Britain adopted an uncompromising or bellicose attitude. Count Sforza agreed with M. Poincare.

It is believed that the Kemalists would entertain discussions on an acceptable basis. An agreement was cabled yesterday evening. When it arrived, the Conference decided in principle to hold a peace conference at Venice.

It is pointed out that Russia has not been invited as she is not directly interested, the Soviet-Angoran Treaty specifically excluding the Russians from decisions affecting the sovereignty of Turkey and the security of Constantinople.

The semi-official statement declares that the problem cannot be referred to the League of Nations as urged by Dr. Nansen and the Dominion representative as in a Governmental matter. The document states that the Foreign Ministers' decision marks a big step on the road to peace.

Simla, Sept. 21.—Twenty-five Moslem members of the Legislature have submitted their views on the Near East situation to the Viceroy most earnestly and with the greatest moderation, calling attention to the points on which they considered Turkish peace ought to be based which formed the subject of the Government of India's famous telegram of March 8 formulating a policy for the Imperial Government and the unauthorised publication of which resulted in Mr. Montagu's resignation of the Secretaryship of India. The Viceroy promised to lay this views before the Imperial Government.

Paris, Sept. 21.—A message from Angora reports that the Turks have altogether captured 60,000 Greeks.

Wellington, N. Z., Sept. 21.—There has been an immense response to the proposal for service in the Straits. Ten thousand New Zealanders yesterday alone offered themselves. All the Great War records have been broken.

Geneva, Sept. 21.—Dr. Nansen's Near East proposal invites the Assembly to request the Council to consider steps by an offer of its good offices to the belligerents otherwise to secure immediate cessation of hostilities. The proposal has been referred to the Political Commission.

Japan alone escaped adverse criticism from the mandatory powers when the Assembly resumed discussion on the mandate reports. On the contrary the Permanent Mandates Commission, of which Marquis Theodoli is Chairman, expressly complimented Japan on the way in which she carried out her

TWO MAIL BOATS ARRIVING TODAY, ONE DEPARTING

President Wilson Due From San Francisco, Empress Boat From Vancouver

Two mail steamers arriving today from America are the President Wilson of the Pacific Mail, due to dock at the China Merchants Central wharf from San Francisco about 10 o'clock this morning and the Empress of Russia of the Canadian Pacific Steamships, due off Woosung from Vancouver at 2 o'clock in the afternoon.

The President Wilson has a full passenger list and brings to Shanghai besides a considerable shipment of silver 3,000 tons of freight. The vessel is to be despatched for Hongkong and Manila tomorrow. The incoming tender from the Empress of Russia is expected at the Customs Jetty about 4:30 o'clock this afternoon. The liner sails for Hongkong and Manila tomorrow morning and the outbound tender for the ship is to leave the Customs Jetty at 9 o'clock tomorrow morning.

Following the President Cleveland of the Pacific Mail, which sails this morning for San Francisco the next outbound American mail will go on the President McKinley of the Admiral Line sailing for Seattle on Monday. The McKinley is scheduled to dock at the China Merchants Lower wharf on Sunday. The Empress of Canada of the Canadian Pacific Steamships also is scheduled to sail for America on Monday.

Corned Beef And Cabbage Makes Big Hit In Mexico City

(China Press Service)

Mexico City, Sept. 2.—When an enterprising American woman in Mexico City recently opened a "Hole in the Wall," catering to the exclusive tastes of homesick "staters" who tire of chiles and frijoles and yearn for hotcakes and doughnuts, she started something. An epidemic of shops, restaurants and the like, reminiscent of "back home" has broken out and the Americans are showing their loyalty by patronising them liberally.

A stroll down Madera Avenue discloses a white-capped, white-aproned gentleman in an expansive window performing well-known contortions with griddle cakes. In the next block one may read this sign, "Sinkers and coffee, 25 cents." One of the most popular places in the city has been "Number 14," a tiny establishment on a side street where friendly invitations are made to have a "Tom and Jerry" or a "Genuine Rye Highball," creations that were never conceived in Mexico, but were born of pre-war genius in the United States.

It remained, however, for several San Franciscans to reap a rich harvest from homesick Americans. They started a cantina and they christened it "Dinty Moore's," and to the eternal glory of American citizenship may it be said that they have enlarged the place three times in two weeks in order to accommodate the crowds that clamor for corned beef and cabbage, virtually the only item on the bill of fare.

duties and the excellence of her reports.

London, Sept. 20.—Brisk business continues in the London insurance market in connection with the Near East. Ten percent for three months is quoted for property in Constantinople. The rate for warehoused goods is about the same.

"In No Case Will French Forces Be Used Against Turks"

(Reuter's Service)

Paris, Sept. 20.—Replying to a question by M. Darlac, the President of the Financial Commission of the Chamber, M. Poincare stated that in no case would French soldiers now in the Near East be employed against the Kemalists.

London, Sept. 20.—An unexpected conference was urgently summoned this evening of the Ministers and the Army, Navy and Air Force chiefs, for which Mr. Lloyd George and Mr. Winston Churchill returned from the country.

The conference is believed to have been due to a communication from Lord Curzon, who during the afternoon and the evening conferred with M. Poincare, Count Sforza and Lord Hardinge, together with experts, in Paris.

It is noteworthy that M. Poincare conferred with Marshal Foch and General Weygand before the afternoon meeting with Lord Curzon.

Paris, September 20.—The conference at the Quai d'Orsay ended at seven this evening.

A communique states that Lord Curzon, Count Sforza and M. Poincare agreed on the advisability of convoking as soon as possible a conference at which Britain, France, Italy, Japan, Greece, Rumania, Jugo-Slavia and Turkey will be represented, to draft terms of a future peace.

Earl Beatty reported on the naval and military situation and Admiral Grasset, Chief of the French Naval Staff, supplied supplementary information. The conference will be resumed tomorrow.

Simla, Sept. 20.—The Mohammedan motion in the Legislative Assembly yesterday evening for an adjournment to discuss the Turkish situation has been withdrawn as the Viceroy will receive the Mohammedan members to hear their views.

Paris, Sept. 20.—The Turkish Press Bureau states that Ferid Bey's statement yesterday has been misinterpreted. The Bureau is authorised to explain that Turkey is ready to negotiate with the Powers with regard to the freedom of the Straits.

It will consider their wishes with a view to ensuring the opening of the Straits to international communications.

Paris, Sept. 20.—Information, received by the Ministry of Marine, states that the whole of the town of Panderma in Karasi, including the railway-station and the Ottoman Bank, has been destroyed by fire, except a hundred houses.

There have been heavy casualties amongst civilians.

New York, Sept. 20.—It is reported from Constantinople that that Kemal Pasha has issued a proclamation to the Turkish nation, declaring that the tremendous victory is exclusively their work and that the losses of the enemy exceed 100,000 while the Kemalist losses are only 10,000, three-quarters of which number are wounded.

Addressing the foreign representatives at Angora, the Premier, Rauf Bey, ridiculed the suggestion that Turkey was carrying on a war of conquest but he added that it was their duty to persevere until they had completely realised all their national aspirations.

Constantinople, Sept. 20.—General Sir Charles Harrington as Allied Generalissimo in a manifesto to the people with regard to public uneasiness at the general situation owing to reports from Smyrna says that there is no cause for alarm.

The Near Eastern question, he continues, is receiving the full and earnest attention of statesmen and pending their decision it is the duty of the public to follow their normal vocations in peace

Athens, Sept. 20.—A report from Constantinople states that the alarm felt by Europeans and Christians is not due to fear of a Kemalist invasion so much as an outburst by the daily increasing Kemalist partizans in the city who are alleged to be arming.

Paris, Sept. 20.—According to the Temps Mustapha Kemal is reported to have requested an interview with General Pelle, who has left for Smyrna.

Paris, Sept. 20.—The Italian newspaper, Tribuna, understands that in case of complications the Italian contingents will even withdraw from Constantinople.

(China Press Service)

Constantinople, Sept. 19.—The Turkish government informed the Allies that if the remainder of the Greek Army in Asia-Minor attempts to reach Greece by crossing the neutral zones on the Dardenells, the Kemalists would disregard the Straits neutrality and pursue.

Paris, Sept. 20.—Lord Curzon is here to discuss the Near East situation with Poincare who has abandoned his visit to the Colonial Exhibition at Marseilles owing to the political crisis.

Last Of Greeks Leave Anatolia

(French Wireless through Reuter)

Paris, September 20.—The last Greek formations in Anatolia were embarked on Monday.

Paris, September 20.—The Assembly of the League of Nations at Geneva today continued the discussion of mandates.

Sir Francis Bell (New Zealand) declared that the New Zealand Government was eager to receive suggestions and advice from the Mandates Commission or the Council of the League but could not admit that the Mandates Commission should be invited to interpret the sense of the Pact or to dictate the procedure to be followed in the effects which New Zealand was making to fulfil its duty towards the League of Nations.

Mr. Sivaswamy Aiyer (India) expressed the hope that the mandatory Powers would apply the conclusions of the Commission. There was nothing, he said, in the report of the Commission which could offend the New Zealand Government. He regretted that the Government of South Africa had not furnished a report on the territory entrusted to it under mandate.

M. Bellegarde (Haiti) declared that the administration of territory under mandate should serve as a model for all colonial administration. He demanded that freedom should be given to address petitions to the Mandates Commission.

Dr. Nansen (Norway), the Reporter, drew attention to the fact that, if petitions were addressed directly to the Mandates Commission, this Commission would have to request information from the local and Government authorities. The transmission of petitions by these authorities to the Commission would avoid all delay and it would be guaranteed that all petitions should be forwarded.

Sir James Allen (New Zealand) declared that the New Zealand Parliament was keenly interested in the conditions of foreign laborers. He considered that the forwarding of petitions direct to the Mandates Commission would lead to agitation.

Sir Edgar Walton (South Africa) declared that, if the Government of South Africa was not represented at the session of the Mandates Commission, it was because the qualified administrator was then engaged in pacifying the country.

Lord Robert Cecil proposed that the petitions of the inhabitants of the territories under mandate would be sent to the Mandates Commission after having been seen by the mandatory Powers. The Commission would examine the mandates (petitions?) only after having received the observations of the mandatory Powers.

Sir Joseph Cook (New Zealand) declared that his country would administer the countries under mandate in the spirit of Article XXII of the Covenant of the League of Nations.

Dr. Nansen (Norway) expressed the hope that the mandatory Powers would not oppose useful publicity.

The Assembly then adopted the conclusions of the Mandates Commission.

Dominions Want League To Intercede

(Reuter's Service)

London, Sept. 20.—It is reported from Geneva that the delegates of Canada, New Zealand and Australia have telegraphed to Mr. Lloyd George asking him to accept Dr. Nansen's proposal that the Council of the League of Nations be invited to intervene with the object of ending the Graeco-Turkish dispute.

Moscow, Sept. 20.—Leaders of Soviet Russia have announced their firm intention of supporting the Turkish movement to recover Thrace and other territory left from the Ottoman Empire by the Treaty of Sevres, the support to be not only the moral aid which already has been proffered, but troops and munitions if they are needed.

It is considered unlikely that armed aid will be called for by the Turks as the Soviet understands no movement to take Constantinople by force of arms is now contemplated.

Melbourne, Sept. 20—In the course of his speech in the House of Representatives yesterday, Mr. Hughes, the Premier, emphasised that Australia was not a nation of swashbucklers but, if the question arose of defending the vital interests of the Empire, it would not be a matter of sending a contingent but of employing the whole of Australia's resources.

Australia would not take part in a filibustering expedition. She was entirely disinterested in the clash of ambitions between Turkey and Greece.

Ottawa, Sept. 20—Following a further meeting of the Cabinet yesterday the Prime Minister announced that the Government had not yet received such information from Britain as would permit of a decision whether it was necessary to call a special session of Parliament.

He added that the information received was reassuring.

Melbourne, Sept. 20.—Mr. Millen, the Minister for Repatriation, made a statement in the Senate today similar to that made by Mr. Hughes in the House of Representatives yesterday, adding that he hoped that war would be averted.

Nationalist Senators warmly supported Mr. Hughes's action but a Labor Senator, Mr. Gardiner, said that before going to war Australia should pay her existing war debt of £400,000,000.

The Senate without a division resolved to have Mr. Millen's statement printed.

Smyrna In Ashes, Only Walls Remain

(China Press Service)

Smyrna, Sept. 18.—Smyrna is a sepulchre of ashes. Only the shattered walls of twenty five thousand homes and the charred bodies of countless victims remain. They tell a story of death and destruction unexampled in modern history.

The ruins of the city are still smoldering, while the Turks are making no effort to remove the dead and dying. The streets are full of bodies, those who are attempting to escape are mostly women and children.

Thousands of homeless are crouching on the water front fearing death or maltreatment at the hands of the soldiers.

The director of the Armenian orphanage, established by the American Relief Commission, commited suicide yesterday. His mind had become unbalanced due to the horror of the scenes he had witnessed.

Turkish irregulars beat and robbed Doctor McLaughlan, President of the American College. He escaped to a british ship. Nevertheless the American government is the only one respected in the city. The Stars and Stripes is the only flag flying ashore.

British Labor Demands Electio

(Reuter's Service)

London, Sept. 20.—A Labor anti-war demonstration in London today passed a resolution, condemning the foreign policy of Mr. Lloyd George, terming him a danger to the peace of the world, and demanding immediate elections.

Speakers intimated that tomorrow's Trade Union delegation would tell Mr. Lloyd George that organised labor was unitedly opposed to war.

One speaker suggested general stoppage of all industries in the event of war.

Smyrna Money Loss Fixed At $150,000,000

(Reuter's Service)

New York, Sept. 20—It is reported from Smyrna that American and British insurance experts estimate the loss of property in Smyrna at $150,000,000, of which $60,000,000 only is covered by insurance. The British underwriting companies bear the brunt of the loss. The loss of American property is estimated at $12,000,000.

It is impossible to estimate the loss of life but most American observers agree that fully 2,000 persons perished in the flames and probably hundreds were killed by Turkish irregulars.

There was no general massacre but there were wholesale deportations and the fate of the deportees can only be conjectured.

FEARS UNFOUNDED

(Reuter's Service)

London, Sept. 20.—The fears of this evening's papers that the Cabinet meeting portended an unfavorable turn are apparently groundless. It is understood that the Government regards the Paris agreement as most satisfactory.

PUBLIC WORKS REPORT

The marble work in the main entrance and staircase of the Administration building has been completed, according to the monthly report of the Public Works Department. Other improvements made during the last month include improvements to the East Kashing, Kashing and Thorne Road bridges, completion of the second floor of the Hongkew Market, and considerable road improvement work is in progress

ITALIAN STUDENTS

(French Wireless through Reuter)

Paris, Sept. 20.—The Municipality of Paris today received at the Hotel de Ville a delegation of Italian students under the leadership of Professor Perriollo. The delegation presented to the Municipality a reproduction of the bronze plaque on the tomb of the Unknown Soldier.

Weather And Crop News Unfavorable To Cotton

(Reuter's Service)

New York, August 25.—The upward swing of cotton prices which began last week culminated on Monday when prices for active positions were approximately at high levels of the season. Then a reactionary trend developed which led to a restless, uneven market for the balance of the week. It appeared that trade interest ceased around the 23-cent level for October just as it did the previous time that delivery sold there and wihout this support the market faltered and speculative holders were inclined to unload and await the Government.

The latter is expected to be quite as bullish as a month ago but this time the market has been disposed to discount such a report, as both weather and crop news have been distinctly unfavorable throughout the month. The few private mid-month reports that have appeared thus far have suggested a condition around 60 and a yield of possibly eleven million bales. The Texas State Commissioner of Agriculture estimates the Texas condition at 52.7 and thinks cotton may go to 30 cents. Other authorities, however, disagree considerably as to the future of prices. A Washington statistician, who has heretofore been very bullish on the cotton outlook, now thinks there is a fair crop and that the weight of hedges will force prices below the 18-cent level.

Nevertheless, he says, this does not mean that prices may not advance to 25 cents or 30 cents next spring when the actual shortage is felt and declares that an eleven million bale crop will not supply the world with the full quota of the demand for American cotton. A New Orleans house of wide reputation in the cotton trade says that the cotton business is evidently facing an acute situation from the viewpoint of supply and demand, as indications are that for the second consecutive season prospects are that consumption will exceed production especially of American cotton since present indications point to an American crop of only about 11,000,000 bales when the world will likely need about 13,000,000, "which assures high prices for this season with the possibility of 30 cents being realised next spring or summer, perhaps, sooner than generally expected." The firm points out that this season's available supply promises a shortage of raw cotton far greater, commensurate with trade requirements, than at any time since the American Civil War.

That the German demand for cotton will not be more than half as large during the next six months as it was in the past six months is the news received by the Department of Commerce at Washington. On the other hand, private cables received here declare that a better demand is expected from Italy and Switzerland.

Undoubtedly the chaotic condition of German finances is exerting a considerable restraining influence on speculative trade in the cotton market and would probably have an even more pronounced effect, coupled as it is with the apparent failure entirely to settle the domestic rail and coal strikes were not for the very bullish character of crop news the past week. While the outlook for a settlement of the textile strike in New England is more promising, some of the mills having already yielded, the forward buying of both home and foreign spinners has been less than usual up to the present time. This suggests a possibility that, if the present small crop estimates are justified, mills and speculative interests may become competitive buyers of cotton on a big scale later on. The argument of the bear trader is that even a small crop will be more than the world can consume unless European finances improve materially during the next year. In local cotton cloth circles it is still apparent that buyers shy at higher prices and many of the agents feel that on the basis of 25-cent cotton it would be very difficult indeed to distribute cotton goods in the present mood of the consuming public.

Meantime the pressure of Southern hedge selling is becoming more pronounced in the market every day, putting a burden on speculative demand which is taxing its absorbing powers to the limit in view of the scant support from trade interests at these levels. Some very conservative houses are urging careful trading until it can be seen more plainly whether this relatively high price level will prove justified so early in the season.

STOCK EXCHANGE DIRECTORS WIN POINT IN CASE

Mixed Court Decides Company And Not Its Officers Must Be Sued

As the outcome of a hearing in the Mixed Court yesterday of the suit of Wong Woa-dah against directors of the Shanghai Chartered Stock and Produce Exchange for recovery of Tls. 160,000 the court ruled that officers of the exchange are not to be held responsible for claims of the kind made and that the Exchange must be sued as a company. The action, which was heard by Magistrate Chang and Japanese Assessor Tanaka, was based upon alleged failure of the Exchange and its directors to deliver to plaintiff certain shares he had purchased.

The plaintiff was represented by the Japanese lawyer, Mr. Kato who stated that the plaintiff was a shareholder of the Exchange and that on account of the increase in the price of the stocks of the Exchange, he had through the services of middlemen bought 850 shares for delivery within two or three months, and that he found that when the time appointed had come, the deal was blocked by the defendants.

Mr. A. Krisel, representing the defendants, asked the plaintiff: "Have you had any negotiations with the directors of the Exchange in regard to the deal in question?" The plaintiff answered: "I have had no negotiations with the directors concerning the deal."

The defendants' counsel addressed the Court, drawing its attention to the fact that in accordance with business usages obtaining in various civilised countries, the executive officers of a company of limited liability are not personally held responsible for the financial obligations contracted by such a company. Mr. Krisel also emphasised the fact that in a case adjudged by the Taiyuan (Supreme Court) in 1916, the verdict contained a distinct reference to the fact that in any suit in which a company has been properly registered as a limited liability company, its shareholders and executive officers are not to be involved in assuming obligations for debts contracted by the company, and that in view of these circumstances, the case against the Chartered Exchange should be dismissed.

The Court decided that the plaintiff could only bring legal proceedings against the Exchange itself and not against the defendants of the case in question.

Sun's Sister-In-Law In Peking, Southern Leader Expected

(Chung Mei Service)

Peking, Sept. 18.—It is reported that the sister-in-law of Dr. Sun Yat-sen arrived in Peking last night. This has given the politicians their cue and they are already proclaiming that Dr. Sun will be coming to Peking soon himself.

Peking, Sept. 18.—Fearing opposition from the military party of Fukien, the Peking Government has sent a wire to General Li Hou-chi saying that Admiral Sah Cheng-ping who has been appointed to inspect the poppy cultivation in that Province on behalf of the nationwide Committee to investigate into the poppy crops, is well liked by the natives of Fukien and that he has a splendid reputation. Therefore, it is requested that the General should not oppose his coming nor place obstacles in his way.

Chang's Recruits Flocking In, Gun Shows Very Active

(Eastern News Agency)

Mukden, Sept. 20.—The new recruits, who have of late been levied by Marshal Chang Tso-lin in various parts of South Manchuria, are arriving at Mukden in a large number, and are now being drilled in order to add fresh force to the Fengtien troops. The large quantities of arms and ammunition, which Marshal Chang has purchased from certain quarters, have already arrived here.

The arsenal at Mukden has been greatly enlarged, where workmen are being worked overtime with the manufacture of arms and ammunition. The fact that Marshal Chang is devoting himself to the completion of warlike preparations is indicative, it is generally observed, of a significant affair ahead in view of the rumor, now in circulation, of the reopening of hostilities between Chihli and Fengtien.

Huston Party Gives Affair On Mojave

Mr. C. H. Huston, Assistant Secretary of the Department of Commerce, and the officers of the U. S. S. Mojave entertained a number of Shanghai people on the Coast Guard cutter at tea fro 3 to 5 o'clock yesterday. The launches Record and Meifoo IV transported the guests from the Customs Jetty to the vessel.

Mr. Huston was the principal guest at a dinner at the Bureau of Foreign Affairs Wednesday General Ho Feng-lin, Military Governor of Sungkiang and Shanghai and Mr. Hsu Yuan, Commissioner of Foreign Affairs were the hosts.

Among the guests were: Mr. Ward T. Dower, Lieut. John M. Creighton, Mr. Joe L. Baker, Mr. Lambert Clifford, Mr. Carl J. Gilbert, Lieut. L. L. Bennett, Lt.-Commander G. H. Hamlet, Senior Surgeon H. M. Evans, Lieut. C. C. McMillan, Lieut. Ellis Reed-Hill, Lieut. W. N. Derby, Lieut. A. C. Mandeville, Messrs. Geo. A. Fitch, J. B. Sawyer, J. E. Jacobs, J. P. Davis, V. G. Lyman, W. H. Blackwood, J. Arnold, A. H. Ford, Admiral Tsai Ting Kan, City Magistrate Shen Pao-chang, Mr. Sung Hang-chang (Bank of China), Mr. Loh Toh Chuan (Sec. to Gen. Ho), Mr. S. K. Chen, Mr. N. T. Yang, Bureau of Foreign Affairs.

NEW EMPIRE PLAN

(Reuter's Service)

London, Sept. 20.—A new campaign for Empire development is being inaugurated by Lord Long, who, in the course of an article in the October issue of the "Nineteenth Century" suggests that in the first place a Cabinet committee should inquire whether the lapse of time necessitates any changes from the United Kingdom point of view in the decisions of the Imperial War Conference of 1917 in favor of encouraging development of Imperial resources and that this should be followed by an Imperial Conference, including the Crown Colonies, to lay down a definite policy.

OPENING

STATE INSURANCE PLAN MAY HAVE TRIAL IN ISLANDS

(China Press Service)

Manila, Sept. 20.—The Philippine government will go into the general insurance business if a recommendation to this effect, submitted by the director of posts and secretary of commerce and communications, is approved by the governor general and the Philippine legislature.

A bill has already been drafted by Director of Posts Topacio and has been submitted to Governor General Wood by the secretary of commerce and communications with the request from both officials that the executive recommend its adoption by the Philippine legislature in his message to that body when it opens next month.

According to the terms of the bill, any person residing in a municipality where a first class post office is located can insure himself at the post office, the policy per person not to exceed P.400, premium to be paid monthly. It is explained that the policy is fixed at this amount in order that the postoffice may not enter into competition with local insurance companies. The securing of policies is made easier because the usual conditions imposed by the regular insurance companies, such as health certificates and other things, are not required, if the bill is adopted in the form in which it has been drafted.

The idea behind the plan to get the government to enter the insurance business it was explained yesterday, is to enable the people of the Philippines, especially the mass of the people, those that insurance companies cannot reach, to provide for the future at the same time enhancing the revenues of the government.

Japan, it is stated, through the establishment of a similar plan, made 1,000,000 yen last year.

Hitch In Plans To Try Daugherty

(China Press Service)

Washington, Sept. 20.—Impeachment proceedings against Attorney General Harry Daugherty have been postponed according to announcement today. The postponement has caused labor circles, who favor the impeachment proceedings, to call a mass meeting in protest.

New York, Sept. 18.—Representative Keller of Minnesota, who introduced the resolution impeaching Attorney General Daugherty announced today that he had requested Samuel M. Untermyer to act as his counsel. Keller intends to push the proceedings.

Untermyer stated that he was forwarding his decision to representative Keller at Washington, to be made public there.

Germany Excited By Cecil's Speech

(Reuter's Service)

London, Sept. 20.—There is some excitement in Germany as a result of Lord Robert Cecil's intimation at the Assembly of the League of Nations yesterday that the Third Commission considered that the drafting of a practical scheme of disarmament was impracticable until the question of inter-Allied indebtedness was settled as part of the reparations settlement. As M. Jouvenel, the French delegate, hinted that France was not averse to reference of the reparations question to the League, the German papers are very hopeful that this means a change in France's attitude.

Edward Bell Gets Peking Legation Post

Mr. Edward Bell is expected to leave Washington on November 1 for Peking to become a member of the staff of the American Legation, according to word received in Shanghai yesterday.

Mr. Bell holds the rank of Counsellor of Embassy and during the past year has been in charge of all publicity from the State Department at Washington. During the war he was attached to the American Embassy in London, and subsequently was Charge d'Affaires at the American Legation in Tokio.

VARDAMAN LOSES

(China Press Service)

Jackson, Miss., Sept. 19.—Former Congressman Huber: Stephens of the Second Mississippi district has apparently been nominated for the United States Senate on the Democratic ticket over former Senator James K. Vardaman by approximately 15,000 votes. Returns are still incomplete from some of the distant counties in the state.

The nomination is for a successor to **Senator John Sharp** Williams, who will return in October next. The Democratic nomination in Mississippi is practically equivalent to election.

TO VISIT POLAND

(French Wireless through Reuter)

Paris, Sept. 20.—The King of Rumania will visit the President of Poland at Warsaw in March, it is announced.

Were You Ever as Seasick as This?

Remarkable Results Obtained from "KIRBY'S Sea-Sick Cure."

A prominent physician relates the case of a young man, acutely sea-sick for three days. The third morning he vomited more than a dozen times. After taking the first dose of "KIRBY'S Sea-Sick Cure" he did not vomit again, and was able to eat dinner shortly afterwards. "KIRBY'S Sea-Sick Cure" produces no depression or disagreeable after effects. It's action is almost immediate, it is free from opiates, bromides, chloral and other noxious drugs. It stops and prevents trainsickness, climber's dizziness, aerial and other forms of nausea. Prominent physicians endorse it.

Sold at all dispensaries at $1.50 per box of 10 doses. Sole Props., Collins & Ross, London.

Why a Tile Roof Leaks

The heat of summer causes the tile to expand while the cold of winter causes it to contract. Since tile is a fragile material, it cannot stand the repeated expansions and contractions without cracking.

The water absorbed in its pores evaporates or freezes and then expands which causes the tile to break up quickly

For these reasons tile roofs can never last as long as

Certain-teed

roofs. Because *Certain-teed* contracts and expands with temperature changes and does not absorb water, it makes an absolutely weather-proof roof under all sorts of conditions.

Chinese house-owners, too, are using Certain-teed instead of the old-style leaky tile roof.

49 Runs, 51 Hits, In Record Baseball Game At Chicago

Chicago, Aug. 25.—Two world's records were smashed and two other marks were equalled in a weird slugging match which the Cubs won from the Phillies today by a score of 26 to 23.

The total runs scored by both clubs—forty-nine—is the biggest score in a game of all time according to records available. On July 12, 1890, Brooklyn and Buffalo (N. L.) scored forty-four runs. The previous world's mark made since 1876 was forty-three runs, made in the game between Chicago and Louisville on June 29, 1897, when Chicago collected thirty-six and Louisville seven. The greatest score since 1900 was made in the Boston-Philadelphia game of May 20, 1901 when a total of thirty-five runs was scored.

The record for the most hits by both teams since 1900 in one game was shattered, a total of fifty-one hits being made. New York and Cincinnati, in the National League, scored forty-nine hits during a contest June 9, 1901. St. Louis and Cleveland, while in the American Association, made fifty-three hits on April 30, 1887. Bases on balls at that time, however, were counted as hits. Philadelphia outhit Chicago today, twenty-six to twenty-five.

Outfielder Callaghan of the Chicago Club equalled the world's record for the number of times to face a pitcher in one inning. He came up three times during the fourth inning batting rally of the Cubs and smashed out two hits and struck out once. This record is shared by T. Burns, Fred Pfeffer, F. Goldsmith and Billy Sunday, who faced the pitcher three times each in the seventh inning of a game between Chicago and Detroit on Sept. 3, 1883. This record was tied on June 18, 1894, by T. McCarthy in the first inning of the Baltimore-Boston game in the National League, and again by R. L. Murphy, in the Washington-Baltimore (American Association) first inning on June 17, 1891.

By scoring fourteen runs in one inning, the Cubs tied the modern major league record made by the New York Americans against Washington on July 6, 1920. They also came within four runs of tying the world's mark of eighteen made in the Detroit-Chicago game of Sept. 6, 1883.

The score:

Osborne 3 in 1, Ring 12 in 3 1-3, Weinert 13 in 4 2-3. Hit by pitcher—By Weinert (Grimes). Wild pitch—Stueland. Winning pitcher—Kaufmann. Losing pitcher—Ring. Umpires—Hart and Rigler. Time of game—3:01.

Baer: SAYS "BUGS" THE HOBOES OF BASEBALL

The Travelling Sparrows Worked Very Hard Dodging Hard Work

The office under the Big Tree was a busy spot on Monday mornings. The Sparrows would drop in from their Saturday and Sunday games and compare bank accounts. It was a fortunate bird who didn't make the homeward trip by the ankle excursion route.

The usual tour was along the itinerary selected by the pathfinder for the Freight Car Club of America.

Nippers got back rather late one morning. He had been down to Perryville playing left field. His job called for three dollars a game and a Perryville uniform. But he had to leave the three masters for a deposit on the uniform.

It was the first time that Nippers had ever had a regular baseball afternoon gown on. He stood in front of a well-cracked mirror in the Perryville clubhouse reading the insignia backward.

E-L-L-I-V-Y-R-R-E-P — Perryville. It looked like the history of the world to him.

Out in the field, Nippers looked down at his bright painted stockings, examined his spikes, took off his cap and looked at it. The uniform was almost second-handed but looked new to Nippers. Then in a flood of pride he looked down at his own inflated chest and started to pick out the letters one by one.

P-E-R-R-Y bloomp! The first batter up had slapped an easy fly to left field that arched gently up and landed on Nipper's chest as his index finger had gotten to the V in Perryville.

The blow sat Nippers down in the weeds, but he got up looking for the bird who had punched him. The squawks of the home crowd and the baseball laying at his feet told him the story.

Nippers had blown the works and the good will went along with the fixtures.

He opened up a new exit in the center field fence with all of Perryville escorting him at an unsafe distance.

This is a true story. Nippers came back the next day wearing a mustache that he had picked up in a notion store. They didn't know him and gave him a job. This time he was a pitcher. In the sixth inning the glue melted on the mustache when Nippers was trying to throw a strike. As the whiskers came off, the crowd recognised him. This time Nippers left Perryville for keeps.

This was only a day's work in the life of a baseball hobo. Nippers bummed from town to town for about fifteen years. He passed out under a showerbath in Mahony City.

He had played his first good game and they told him to come back for the next game. Then Nippers went out to take his first showerbath. It was his last. They found him the next morning deader than asated cod.

BELL SAVES FIGHTER

Vancouver B. C., Sept. 18.—Vice Foley, of Vancouver, gained a decision over Brownie Villan of Manila, in ten rounds. The early rounds were even. The bell saved Villan in the seventh round, but cleverness enabled him to finish the bout. Both fighters are bantam weights.

Britain's Women Chess Stars

THESE four women, stars among the chess players of Great Britain, were entered in the International Chess tourney which ended recently at Central Hall, Westminster, London. Mrs. Rawson is president of the Imperial Chess Club. Mrs. Anderson is champion woman chess player of England and Mrs. Stevenson, an ex-champion.

Sports Interest Has Revived In Germany

(Chung Mei Service)

Berlin—German interest in sports of all kinds has been revived to such an extent that newspapers are giving much space to sporting news and announcements.

International sporting events between the countries which were neutral during the war and with other Central European countries are being staged almost every day.

Horse racing leads in interest, with boxing, cycling, European football, tennis and billiards drawing big crowds and much newspaper comment.

From seventeen to twenty entries start in most of the big horse races at the Grunewald track each day. Usually seven or eight races are run off during an afternoon.

Great interest has been aroused in the 10-round fight scheduled in Berlin between Urban Grass, the Cologne bantamweight, and Vollomor, a German-Australian. These fighters met recently in Bremen and fought to a draw.

Much interest has been created in the billiard playing of Hagenlocher, who recently returned from the United States where he defeated every billiardist he met and who recently defeated Brune, the Austrian champion, here. Hagenlocher will leave Germany in August to meet Schafer and Hoppe, American experts, at Daly's Academy in New York. He will be married before he sails.

Program Out For Henli Regatta

The following is the program for the Autumn regatta at Henli on October 28 and 29:

Saturday's events.—Tub Sculls, ¾ mile; Hong Fours, 1 mile; Griffin Pairs, ¾ mile; Junior Fours, 1 mile; Sculling Championship, 1½ mile.

Sunday's events.—Tub Sculls (heats), ¾ mile; S. v. C. Fours, 1 mile; Visitors' Race, ¼ mile; Griffin Fours, ¾ mile; Style Competition (Griffins); Sailing Race, Mixed Fours ¼ mile; Club Fours, 1 mile; International Trial Fours, 1 mile; Tub Sculls (final), ¾ mile; Club Eights, 1 mile.

Fall Racing Will Start Next Week

The racing season starts on the last day of this month with the fourth extra race meeting for 1922 announced by the Shanghai Race Club. The meeting will be held on September 30 and entry forms are now obtainable. Entries must be made with Secretary A. W. Olsen by 7 o'clock Saturday evening.

The 91st meeting of the International Recreation Club will be held at the Kiahgwan track on October 5 and 10, Tuesday and Thursday. Entries for all events at this meeting close next Monday at the International Recreation Club house, 126 Bubbling Well Road.

British Women To Play Tennis Doubles

Members of the B.W.A. Sports Section are reminded that the Ladies' Doubles will be played at the tennis courts at 501 Avenue Haig tomorrow afternoon next beginning at 2 o'clock precisely.

Members of the B. W. A. with their friends are cordially invited to the grounds. The Ladies Singles were played off on Saturday last when Mrs. P. W. Wilkie and Mrs. E. P. Graham-Barrow tied with 24 games each. The best out of seven games gave "The Chairman's Cup" (presented by Mrs. Gull) to Mrs. Wilkie (four to three), while Mrs. Graham-Barrow won the 2nd prize given by the Sports Section.

Tennis

Shanghai Recreation Club V. Portuguese Sporting Association. The above Match will be played on the Race Course Ground commencing at 5 p.m. sharp today. The following have been selected to represent the S. R. C.:

1st League on P. C. A. Ground
H. B. Ollerdessen and J. L. Wade.
I. W. R. Wilson and J. P. Hawes.
A. V. White and C. J. Smith.
I. G. Main and L. P. Quincey.

2nd League on S. R. C. Ground

Astronomers Flock To South Pacific To Test Theory Of Relativity

BY P. L. BRYANT

At noon yesterday, Dr. Einstein went on the grill.

But not for long. At six minutes past noon, some hundreds of perspiring astronomers, also on the grill of ambition, said:

"Let's call it a day."

Most of the world's greatest astronomers were gathered in the South Pacific Ocean as near to 10 South and 106 East of Greenwich as they conveniently could get, for it was there that the eclipse of the sun reached totality at noon and held its totality longest. There the eclipse lasted for 6.1 minutes, but the best that any expedition secured is something less than this as the exact spot of longest totality was not without disturbing climatic influences, such as clouds and rain.

All were seeking a place in the sun where the sun would refuse to shine for the six minutes, or less. America sent her greatest astronomer, Dr. W. W. Campbell, director of Lick Observatory; Britain sent the Chief Assistant to the Astronomer Royal at Greenwich, Mr. H. Spencer Jones; while a Dutch expedition which includes Dr. Einstein, a German one and several others all crowded as near the goal of long totality as they could get, while the "stay-at-home" astronomers, the jugglers of triple integrations, tied freshly-iced fillets around their brows and plunged into calculations tending to prove that if the North Pole were a cork, the bending of the light rays by the sun might give an etherial corkscrew that could pull it, if the puller had a place on which to stand, a la Archimedes.

Perhaps he did not know it, but when Dr. Einstein evolved his relativity theory, he made astronomy a mighty expensive science. To transport a telescope from California, Greenwich, Zurich or Whatnot, costs money as the telescopes astronomers use are not of the "three-draw 99 cent" variety that mail order houses use for a "come-on" advertisement. They weigh tons. The most experienced mechanics in the world take months to get them set up so that nothing is squeegeed and the horizontal cross-hair sweeps the plane of the ecliptic as softly as does the office boy his feather duster on our desk.

The California expedition carried only 12 tons of apparatus. Cameras of 40 foot focal length and 5 inch lenses, which even Mr. Brobdignag would hesitate to use as a folding pocket instrument, were there, while a battery of seven spectroscopes to seek new lines in the corona also were set up. All these in addition to the telescopes with which this expedition was equipped. The cameras for the most part will be devoted to proving Dr. Einstein right or wrong, and the betting among scientists is about five to one that he is right.

And what if he is? the scoffer wants to know. Why Mr. Scoffer, don't you see the deadly peril that confronts you? Suppose light is curved instead of straight and it takes many light years for a beam to reach us from the outer realms of space, some genius may find a way to "plug in" on these light waves and read your past from the cradle to where you now are. How would you like that.

The census clerks, worn out with women voters' ambiguous replies such as:

"Over 25, or thereabout,"

may turn on the Einstein light and say with conviction.

"Yes, you were. Twenty years ago."

Really this Einstein stuff may put lots of people in peculiar predicaments.

But the astronomers are after more than that. They know much about the sun, but not so much. They cannot tell whether the sun is growing hotter or colder, although every physical consideration would posit the latter. Also the corona, that pearly glow that flashes across the sky just as totality is reached—what is it?

The spectroscopes will be expected to put mankind a little further on the path of knowledge as to the corona, which contains some element provisionally called "coronium" that nothing on earth or in the stellar spectra doth resemble.

But what boots it all? says the Scoffer, the Practical Man. What does it matter whether we know that light bends or that the corona line of wave length 0.5303 Angstrom is "coronium?"

Nobody knows, is the only answer that can be given, and that same answer probably was given the Egyptian or Cretan scoffer who asked what does it matter if my heart goes "zoompety-umph," instead of "zoom, zoompety-zoom."

Anyone familiar with the stethescope can answer him, and when it is considered that the sun is the heart of the solar system in which is our earth, with its infinitesimal skin of habitable surface, even that three fourths water, the importance of any fact about the sun becomes apparent.

Therefore the prayers of Christian, Moslem, Budhist and all the other sects who beseech Divine guidance should go up yesterday for the astronomers on Christmas Island and the West Coast of Australia. And the prayer should be:

"May these seekers after celestial facts meet with success in that they seek to render God's visible garment, the Universe, more accessible to us. May they bring us nearer to a realisation of His majesty and our own unworthiness and aid us in our hopes for immortality."

JEWISH PEOPLE HERE TO OBSERVE THEIR NEW YEAR

Observance Of Ancient Holiday Opens This Evening

In common with Hebrews in all parts of the world Jewish residents of Shanghai will this evening start their centuries-old observance of the Jewish New Year, which, according to the Jewish calendar marks the year 5683. The observance opening this evening will continue through tomorrow and Sunday.

Special services will be held at the three synagogues in Shanghai while Rabbi W. Hirsch will deliver sermons on Saturday and Sunday at the Ohel Rachel Synagogue. His subjects will be "Nationality and Common Brotherhood" on Saturday and "Constancy in Variety" Sunday morning.

Special services will also be held at Ohle-Rachel Synagogue on Sunday, October 1, the ninth day of the New Year which is known as the ninth day of Tishri, the first month in the Jewish Calendar. It is the eve of Yom Kippur. Rabbi Hirsch will speak on "The Sorrows of Life." Yom Kippur, or the Day of Atonement, is one of the most solemn events in the life of the Jew. This falls on Monday, October 2. "Common Responsibility" will be the subject of Rabbi Hirsch's sermon at the Synagogue.

Yom Kippur is the day on which the world's Jews, clad in white, fast for 24 hours to atone for their sins. No manual labor is performed on this day.

The week following the Day of Atonement will be the Feast of th Tabernacles.

HEALTH REPORT

Only one foreigner and 168 Chinese died in Shanghai during the week just ended, according to the weekly health returns of Acting Commissioner of Public Health P. A. P. Hill yesterday.

Communicable disease returns show that 3 foreigners are suffering from dysentery, and one each from cholera, typhoid fever and paratyphoid fever. Chinese sickness includes 8 cholera cases, one diptheria, one scarlet fever, 14 tuberculosis, and 5 dysentery cases.

presenting

HOBART BOSWORTH

in

"Below The Surface"

Directed by IRVIN WILLAT — *Story by* LUTHER REED

A Paramount Artcraft Picture

A great love story of the sea. Of under-water heroes and underworld "sharks". Of a father's love for a willful son, a boy's love for an unworthy woman, a girl's love that waits and wins when the storm of passions ends.

A story of fog and wreck and rescue, of city revel and small-town charm. And the most exciting sub-sea exploits ever shown in a motion picture. A story more human and far more appealing than even Bosworth's "Behind the Door."

With

Lloyd Hughes and Grace Darmond

You'll want to see:-

The delightful home and love scenes in a little seacoast village.

The crew in a sunken U. S. submarine fighting death from suffocation.

Hobart Bosworth's plunge to the depths, where he saves the joy-crazed seamen.

The confidence woman's luring of a love-mad youth to dive for sunken treasure.

The tragedy of the boy's return, after his bride has fled with her lover.

Bosworth's descent on a New York cabaret, where he fights for the runaway wife and carries her off to the home-bound boat.

The wreck of the boat in a fog. Wild scenes attending the sinking.

The father's return to the sick son with news that the young wife is lost.

The boy's rash dive to the wreck. What he sees through the porthole!

The heart-thrilling scene when Bosworth, without a diver's suit, gropes to a killing depth, cuts the fouled lifeline, swims with the disillusioned lad to the surface.

The satisfying, happy ending.

"ALL FOR A WOMAN"

Oregon College Woman To Teach Home Economics At Peking University

Dean Avo Milam Plans To Make Intimate Study Of Chinese Home Life On Tour Of Year Starting From Canton

Pioneering in the study of Chinese home life and establishing the first school of economics in this country—at Peking University—will be the task of Dean Avo B. Milam of the Oregon Agricultural College, who arrived in Shanghai on the President Jackson. Dean Milam was accompanied by Miss Camila Mills, a graduate in Home Economics. The latter goes to Nanking to enter Language School.

"My plan is to study the home life of China for a year," says Dean Milam. "This is to obtain a background for establishing the department of home economics at Peking university. Starting at Canton, I will gradually travel north, stopping at Foochow, Shanghai, Hangchow, Soochow, Nanking, Kiukiang, Wuchang, Hankow and on up to Peking. Then, using Peking as a center, we shall make all sorts of studies of conditions in North China."

TO ENLIST STUDENTS

During the latter part of the year a number of the older students of Peking university who can speak English will assist in the research work in Peking homes, for which they will receive credit.

Actual courses in home economics will be offered in Peking university during Dean Milam's second year in China—for the first time in the history of the nation. A building will be erected especially for the instructional work, of the distinctively Chinese type of architecture, but with American ideas of heating and lighting.

"Plans are being made to work in co-operation with the Rockefeller Medical college at Peking," says Dean Milam. "This institution has already made a chemical analysis of all food materials used by the Chinese. This information will be used as a basis for our work in nutrition. I have already started on the library for the school, having sent the university a list of books to be ordered."

TO HAVE NEW PLANT

The University of Peking is now in temporary quarters. An old landscape garden of 100 acres has been bought, adjoining the city, and this garden will form the campus for the new university. At present the institution is a high ranking one, with faculty members from many leading American universities. A graduate from Peking university may enter any American university as a graduate student.

"Instruction in home economics in China touches every university woman in America," declares Miss Milam. "All over the United States the women are contributing to the fund for this work—the Association of University Women having pledged a large amount to the maintenance of the seven women's colleges of the Orient. Three of these are in China, Peking university being one. Three others are in India and one is in Japan. The Rockefeller foundation offers a million dollars to these seven colleges if they can obtain an additional two million by the first of January, 1923."

'Four Horsemen' Is Remarkable Drama

The Metro screen version of "The Four Horsemen of the Apocalypse" is a remarkable achievement. The pages of the novel will find the complete story in the photoplay; the spectator who is not familiar with the work of Vicente Blasco-Ibanez will behold an eleven-reel picture containing thirty-two characters in which the plot is crystal clear, the human note always present and round and full of tone, and the symbolism of the title and its application to the titanic struggle between nations that is still fresh in the memory unmistakable in its just arraignment of the horror and dreadful waste of war. Coupled with all this he will find acts of simple heroism and nobility of soul, truthful incidents of everyday life and a deft balance of playful humor—that sorely-needed blessing to humanity that does so much to keep it sane and hopeful in moments of great mental stress.

Most important of all every foot of film in the picture is entertainment. By far the best screen story dealing with its subject, it is first and foremost drama as the great masters of the stage understood the word: life, mankind in action; a skilled depiction of events, not a preachment. The nature of its fame is forgotten in the power of its appeal and the dexterity of its telling. It has that perfect blend of laughter and tears which is the goal of the dramatist, and it marks the advent of a craftsman. Rex Ingram, the director of "The Four Horsemen of the Apocalypse" has by it won a position among the leaders of his profession. June Mathis, who provided the scenario and the continuity, has accomplished her difficult task with the best of results, and John Seitz by his thoroughly artistic camera work has aided materially in sustaining the high character of the picture.

Technical detail that attracts attention by reason of its unusual merit is of many sorts. The casting of the characters, the correctness of location, the minute perfection of settings and costumes, the sure grasp of light effects, the perfect moulding of human countenance by the proper use of light and shadow, the composition of the individual scenes and the splendid command of form and tempo cannot escape instant recognition. The cutting of the picture is practically flawless. By the time it reaches the general public it will have the symmetry of a tone-poem. Nothing is more remarkable about this screen epoch than its subjection of every element to the laws of true drama, to the elimination of every foot that interferes with the progress of its story.

A separate word is due the manner in which the four horsemen of the scriptures are introduced. They are the incarnation of the supernatural and seem to be riding above a world which they have come to destroy. The machinery used is simplicity itself; the effect is weird, mysterious, awe-inspiring.

From a cast of such great length as the Ibanez drama demands the names of Rudoph Valentino, Alice Terry, Pomeroy Cannon, Joseph Stockard, Alan Hale, John Sainpolis, Stuart Holmes and Wallace Terry stand out prominently. All the characters are excellently acted but superior opportunity has permitted the leading players to center attention upon themselves. The love romance around Julio Desnoyers and Marguerite Laurier make them the most important characters in the story. Both actors are ideal for the types they portray and they act with fine sincerity and abundant technical skill. Rudolph Valentino gives every indication of having been born in the Argentine, and Alice Terry is the French woman she depicts to the life.

UPHOLD SEIZURE

(Reuter's Service)

Boston, Sept. 19.—The Federal Court, in sustaining the seizure of the British schooner Grace and Ruby six miles off the shore last March, held that rum-runners were not immune from seizure merely because they were beyond the three-mile limit.

State To Compensate Coal Mine Victims' Relatives $100,000

(China Press Service)

Jackson, Cal., Sept. 20.—The work of bringing the bodies of the 42 of the 47 miners entombed on August 27, who were found last night, is proceeding slowly. The decomposed remains are wrapped in canvas before being hoisted to the top.

Most of the bodies were found stripped to the skin as the miners had used their clothing to plug holes in a bulkhead in an effort to shut off the flow of gas which ultimately killed them. Five other bodies are believed to be behind a second bulkhead which the men also tried to make gas tight.

A rigid investigation will be made into the causes of the accident in an endeavor of fix the responsibility.

The State Industrial Accident Commission will pay the families of the men who died down there in the dark upwards of $100,000 as compensation.

HONOR FOR PAYNE

(French Wireless through Reuter)

Paris, Sept. 20.—General Pau today presented the insignia of Commander of the Legion of Honor to Mr. John Barton Payne, Chairman of the Central Committee of the American Red Cross.

Hearst Men Beaten In N. York Primary

(China Press Service)

Albany, N. Y., Sept. 20.—Most of the candidates for delegates to the State Democratic convention who were pledged to support the candidacy of William Randolf Hearst for Governor, have been defeated in the primary elections held yesterday.

Albany county in particular proved exceedingly inimical to the New York newspaper proprietor and his delegates were snowed under by a 20 to 1 vote.

PLAN PARLEY

(Reuter's Service)

London, Sept. 20.—An official report from Moscow states that the Chinese Foreign Minister has accepted the proposal of a joint Russo-Chinese conference to settle outstanding questions, based on equality of both sides. He suggests that the meeting should be held in Peking shortly.

FOREST FIRES

(China Press Service)

San Francisco, Sept. 20.—The United States forest service reports that California is facing the worst forest fire situation in years. Seven fires are sweeping uncontrolled over three national forests. More than 50,000 acres have been burned over. The hot weather adds to the difficulties of the fire fighters.

MARSHAL TUAN TELLS STUDENTS TO AVOID POLITICS

"Stick To Your Studies," Is Advice He Gives At Tientsin

(Eastern News Agency)

Tientsin, Sept. 20.—Marshal Tuan Chi-jui, who, for the last seven months since his arrival here from Peking, had never stepped even one foot out of the gate of his abode, today without any previous notice paid a visit to the Tun Wen Middle School, which is under the management of the Bilingual Association of the Orient, when he addressed an assembly of the students to the following effect:

That there is a tendency at the present time among Chinese students to busy themselves with national politics without attending to their studies is a thing most deplorable for the country. It is earnestly to be hoped, therefore, that you, young students, while in school, should devote yourselves to your studies with all your heart so that you may become able and useful men of the country in the future and that you may recompense the goodwill with which the friendly Power has invested a vast sum of capital in the development of the culture of our country.

REPLY NEXT WEEK

(French Wireless through Reuter)

Paris, Sept. 20.—The Austrian Chancellor, Dr. Seipel, told the principal committee of the Assembly that the league of Nations would give its decision on the Austrian question at the end of next week. Dr. Seipel will leave for Geneva on Saturday.

Women Carry Letters In Syracuse, N.Y.

MISS Mary Doyle is one of the women letter carriers of East Syracuse, N. Y. Unlike male carriers, she does not whistle to announce her approach, for her pet dog, "Delivery," barks as she mounts the steps of each house. Folks are doubtful whether "Delivery" is "special" or "general."

WHEN CHILDREN GRIND THEIR TEETH IN SLEEP

it is almost always a sign of worms. Other indications are irregular appetite, bad breath, pain and swelling of the abdomen, irritation in the nose. Baby's Own Tablets, the Canadian children's remedy-given for a few days, destroy worms, and a marked improvement in appetite and general health speedily results.

Guaranteed free from opiates and absolutely harmless even to the youngest babe, Baby's Own Tablets are a remedy for infantile indigestion, constipation, colic, simple fever, diarrhoea and teething troubles. Obtainable from chemists, or post free at 60 cents the vial, from Dr. Williams' Medicine Co., 96 Szechuen Road, Shanghai.

Our Autumn Silk Sale
Commences Today
Continuing for two weeks only.

Laou Kiu Chwang has been established as silk merchants in Shanghai for 65 years and in that time has gained a reputation for fair-dealing and quality which has caused others to attempt to imitate us.

IMITATION IS THE SINCEREST FORM OF FLATTERY.

We beg to inform our kind patrons that we have no other branches in Shanghai.

See our splendid display of Silks, Satins, Pongees, Embroideries and Drawn-work now on view.

Exchange Fluctuations

Asia Banking Corporation

September 21, 1922

Spot bar silver was down ⅛d in London yesterday and forward unchanged.

The New York price is unchanged and the London-New York cross rate has improved to 443½.

Our official Sterling rate this morning was fixed at 3-5¼, the Gold Dollar rate at 76¼, the Yen rate at 63½ and the Franc rate at 995.

Our market during the morning was steady with speculators buyers and banks fairly good sellers.

Owing to the improvement in the cross rate there was a good demand for Sterling also for Francs, business in which was done at lower rates than those prevailing yesterday.

In the morning business in Sterling was done at 3s. 5⅝d. September, 3s. 5⅛d. October and 3s. 5¾d. for forward delivery.

Gold Dollars were done at 77 September 77¼ October and 77-3-8 for forward delivery.

Yen were done at 63⅜ October and 63¼ November delivery. These were the highest rates at which business was done and in the afternoon the market eased off considerably, speculators being strong buyers.

Business in Sterling was done as low as 3s. 5 7-16d. September, 3s. 5½d. October and 3s. 5 7-16d. for forward delivery.

Gold Dollars were done at 76¾ September, 76⅞ October and 77 for forward delivery.

The market closed uncertain but with probably sellers rather than buyers at these rates.

Sterling bills could have been placed in the afternoon at 3s. 6⅜d., Gold Dollar bills at 78½ and Franc bills at 1030.

There was practically no business done in the London and New York markets yesterday, both of which is reported as steady.

Exchange Market

In their weekly report on the exchange market, Messrs. Maitland, Fearon and Brand state:

Exchange:—The price of silver in London at 35½d. near and 35⅝d. forward is ⅛d. higher than this day last week, the market has moved within narrow limits; speculators appear to have been the chief supporters, while India has again been reported to have been a buyer on a small scale. The official T.T. rate on London after remaining unchanged throughout the week at 3s. 5½d. has lowered just before the close of the market today to 3s. 5¼d. Locally the market has ruled steady with business doing above official quotations. The New York-London rate declined further to 441⅜ but closes steadier at 442½, as a result of this, sterling has been offering at rates slightly above those of last week, while G. $ are a shade easier. A fair quantity of Franc paper was placed on the market also a few bills on New York but generally speaking exports remain very dull. The tone of the market at the close is slightly easier, sterling is offering at 3s. 5¾d. near, with buyers ⅛d. higher for November.

Our stocks of silver are reported as follows:

Sycee and Bar Silver Tls. 41,033,000, a decrease of Tls. 267,000.

Chinese and Mexican Dollars $36,790,000, an increase of $1,160,000.

Estimated value Tls. 67,522,000 as against Tls. 43,300,000 held at this time last year.

Rubber Prices

Messrs. R. N. Truman and Company have received the following telegram from their Singapore Agents in connection with the auctions held there on September 20:

Average price realised:

No. 1 Smoked Sheet $0.24⅝ per pound equivalent to 7d. ex warehouse Singapore.

No. 1 Crepe $0.24½ per pound equivalent to 6 7/8d. ex warehouse Singapore.

Market steady. Offered 650 tons; sold 512 tons.

Messrs. J. A. Wattie and Company have received the following telegram from Messrs. Barker and Company. London dated September 19:

Average spot price standard quality Ribbed Smoked Sheet 7⅝d.

Average spot price standard quality First Crepe 7⅝d.

Market quiet.

Coal Market

In their fortnightly report on the coal market, Messrs. Wheelock and Company state:

Japan Coal:—There is no change to report here and the market has continued very quiet during the last two weeks. The coal market in Japan is firm and according to latest advices stocks at shipping ports are so reduced that great difficulty is being experienced in making supplies keep pace with the demand.

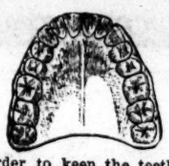
Fushun Coal:—No change.

Fuchung Anthracite:—This market has also been quiet although there are still a fair number of enquiries coming in from both local and foreign sources.

Kaiping Coal:—Railway facilities in the North have steadily improved and supplies are arriving with greater regularity. Fairly large stocks have accumulated at Chinwangtao whilst those at Shanghai are still below the average.

KINGMAN & BROS.

How to Preserve the Teeth



In order to keep the teeth in a good condition scientific precaution must be taken. Through negligence, decay and numerous other affections such as tooth-ache, dental periostitis, esteo-periostitis, necrosis of the jaw, etc., may arise. During the process of ingestion, there are settled on the teeth some deposits of mineral and organic matters, called tartar, which possesses a morbid power of pressing the gum. As an inevitable result of the presence of this tartar, the teeth will become elongated and movable and will, by degrees, absorb away the enamel, leading ultimately to the decay and degeneration of the teeth. The tartar is so hard and resistant to the process of brushing that it cannot be scraped off except with dental instruments specially devised for that purpose.

Dr. KINGMAN offers to the public his service for preserving their teeth at an annual subscription Fee of $10.00 per head to be paid in advance.

The work to be done by Dr KINGMAN to the subscribers consist in:—

(1) Cleaning of the teeth quarterly.
(2) Filling with gold platinum alloy only, when the teeth present holes.
(3) Inspecting the teeth at any time at the desire of the subscribers.

No. 40 Szechuen Road, Shanghai.

Freight Market

In their fortnightly report on the freight market, Messrs. Wheelock and Company state:

There is no improvement to report in the export trade from China to Europe of America and except for a little tea going forward, the market is lifeless.

To United States via Canals:—We would draw the attention of shippers to New York to the fact that the New York Conference, which has been in abeyance for over a year has just been revived:—a meeting of all the Lines interested was held on the 15th inst. at which an agreement was reached to raise the rates to roughly 50 percent of the last Tariff (November 23, 1920) and uniform rates of freight will be maintained in accordance with a Tariff now in course of publication.

Coastwise:—There is little or no change to report in our Northern market but there has been a fair demand for tonnage on the Saigon-Hongkong-Canton run and several fixtures have been made at rates ranging between 22 and 35 cents, Hongkong, Canton:—as we go to press the market is easier.

RUSS BOXER FUND

(Reuter's Pacific Service)

Peking, Sept. 20.—On the recommendation of the Foreign Minister a Chihling mandate was issued today instructing that payment should not be resumed of that portion of the Russian Boxer indemnity which was postponed for five years in 1917, and requesting the Ministry of Finance and the Shuiwuchu to execute it.

Report Is Issued On Tramway Returns

Traffic Return of the Shanghai Tramways for the week ended September 20, 1922, with figures for the corresponding week last year are as follows:

	1922

Order-In-Council Hits Marriott, Beliatzky Co., Is Suspended By Court

The first application of its kind in Shanghai for the winding up of a limited liability company since the China Order-in-Council of 1915 came into operation was filed by Mr. A. G. Mossop before Judge Peter Grain in the British Supreme Court yesterday, for the winding up of the firm of Marriott, Beliatzky and Co., Ltd

Mr. Mossop, in making his application on behalf of the Registrar of Companies in China under the provisions of the Companies' Ordinance of Hongkong and the China Order-in-Council, said that the notice of the winding up was published in the newspapers and no one appeared to oppose or support the petition. The company was incorporated in Shanghai on November 15, 1921, under the Hongkong Companies Ordinance with a capital of Tls. 50,000 divided into 50,000 shares of a tael each. The amount of capital paid up was Tls. 26,000. The registered offices of the company were at 9 Foochow Road, and the Directors: Messrs. F. B. Marriott (British), Paul A. Beliatzky (Polish) and Kenneth E. Newman, solicitor. Mr. Newman resigned on June 10 last, and the Directors and shareholders had failed to take steps to fill the vacancy on the Directorate.

Under the Hongkong Companies' Ordinance and the Order-in-Council the majority of the Directors must be British, and by failure to fill the vacancy the Company did not have the British majority.

The Judge said that in the ordinary course it would be advisable for the Registrar to give a certificate to the effect that he was satisfied that the advertisement had appeared.

Dealing with the legal aspect of the question, Mr. Mossop said that since 1915 the Hongkong Ordinance had given extraordinary powers to the Registrar to make an application for winding up in addition to the usual persons such as creditors and contributories. Article 8 of the China-Order-in-Council provided as well that the majority of the Directors must be British subjects, and if the majority fell below half it was the duty of the Directors or the shareholders to take all necessary steps within thirty days for the appointment of British subjects as Directors according to the provisions of the Order. Failure to provide for it would be sufficient ground for the filing of a petition for the winding up of the Company. The Registrar of Companies in Shanghai had powers to initiate such steps as he thought fit to enforce the observance of this provision. Mr. Mossop said that the Order-in-Chuncil was brought into operation at the same time as the Hongkong Ordinance.

In the case of Marriott, Beliatsky and Co., Ltd., they had a company which had three Directors, two British and one Polish. One Britisher resigned, which left one Britisher and one Polish. There was therefore, no British majority on the Directorate. The only remaining British director was not in Shanghai, while Beliatzky was the only Director at present in Shanghai.

Mr. Mossop finally added that he thought he had satisfied the court that this was a Company which should be wound up for non-compliance with the Order-in-Council. Mr. Mossop said there was nothing known of the assets of the Company.

His Lordship said that he had recently a case before him in which the compradore of the firm of Marriott, Beliatzky sued the firm, and Mr. Beliatzky had stated in Court that there were no assets of the Company. Later on, Mr. Beliatzky stated that there were some assets and these consist apparently of the office furniture and the safe.

Mr. Mossop mentioned that Mr. Beliatzky was prepared to give the Official Receiver every assistance. He understood that Mr. Newman would also give every assistance, and he did not think for a moment that there would be any difficulty in preparing a statement of the affairs of the Company.

The Judge: If Mr. Beliatsky is hostile we have no jurisdiction over him.

Mr. Mossop: None what soever. He is anxious to have this order himself. There is one more point. I want your Lordship to give the Registrar his tax costs. In the event of there being assets we should have priority. The costs of the petitioner should be taxed and be paid out of the assets of the Company.

The Judge: I make the order that the taxed costs should be paid out of assets of the Company. If there is no assets what will happen?

Mr. Mossop: We will have to pay it out of our pockets. We could apply to the Secretary of State for the Colonies to pay us from other funds.

Obituary

COL. SIR HENRY OLDHAM

(Reuter's Service)

London, Sept. 20.—The death is announced of Colonel Sir Henry Oldham, Lieutenant of the Honorable Corps of Gentlemen-at-Arms since 1891, at the age of 82 years.

The late Colonel Oldham served in the China War of 1860 as well as the Cossyah and Jyntiah Hill campaign of 1863-64.

MR. NINIAN ADAIR

Mr. Ninian Adair, senior partner in the well-known engineering firm of Adair, Graham and Company, died of blood poisoning Monday, says The North China Star. Mr. Adair had been ill for more than five weeks.

The cause of his illness may have been an infected mosquito bite or prickly heat rash, from which poison went to other parts of his body. His arms first broke out in sores, later his legs, and when the poison reached his brain death resulted.

Mr. Adair was born in Stranraer, Scotland, in 1874. He was therefore 47 years of age. He first came to China during Boxer times as Chief Engineer for the China Merchants Steamship Company. He left the sea in 1907 and become manager of the Tientsin Iron Works. Later he went home for a vacation and upon returning became Chief Engineer on the Shengta, a Railway steamer.

He left this work to become manager of the Engineering Department of G. Liddell and Company. Then, in 1913, the firm of Adair, Graham and Company was formed with Mr. Adair senior partner. The firm has grown steadily from that time becoming one of the most successful and prosperous engineering firms in Tientsin.

Mr. Adair leaves a wife and three children—two daughters and a son. The son is at present studying in Glasgow University.

WEATHER

Fine and cool weather; the typhoon will reach Tongking possibly filling up. More moderate winds of the North quadrant along our coasts. A new depression is apparently developing about the 10th parallel between the Carolines and the Marianas.

President Beats The Bonus

BY his veto of the $5,000,000,000 Soldiers' Bonus Bill, President Harding has shown himself to be a man of high moral courage. Nearly 5,000,000 American voters were directly and financially interested in the passage of the bill. Although he bases his veto on the fact that the bill does not provide ways and means of raising the money, he has all along been opposed to the measure, and now that the Senate has failed to muster the two thirds vote necessary to pass the bill over his veto, the President probably will have his way.

The only excuse of the slaves of the bonus was that they had pledged themselves to it. They cared nothing for the Treasury, for an estimated deficit of nearly $500,000,000 next year. In the midst of the gravest labor disturbances that have already caused enormous loss and whose settlement cannot avert further losses and must be paid for by the public, they were ready to pile further burdens on the taxpayers.

Mr. Harding has protected the common interest. His efforts to stave off the bonus are honorable to his intelligence and courage and have won him public respect and gratitude. In July of last year he went before the Senate and succeeded in getting the bonus blocked. He warned the Senate that the enactment of the Bonus bill "in the midst of the struggle for readjustment and restoration would hinder every effort and greatly imperil the financial stability of our country." He warned it also that the squandering of billions in gratuities would endanger the ability of the Government to meet its primary obligations to disabled veterans. Last February he urged postponement again. If there was to be a bonus, the bill for that purpose should contain provisions to raise the money. He suggested a sales tax or delay. He knew that Congress wouldn't pass a sales tax. He was trying to kill the project, at least so far as the present Congress is concerned.

What shall be thought of the mentality of men who build a bonus bill without providing means for paying it, who try to trick the country into the belief that there is any way under heaven or among men, direct or indirect, of so financing the bonus that the taxpayer won't have to pay? Pass the bill, redeem the pledges to the American Legion, let the next Congress impose the taxes. That was the theory. At this time the resolve to press the bonus was peculiarly unwise and unpatriotic. Just as restoration of business seemed to have come, the coal strike and the railroad strike brought America to the verge of disaster which, even if escaped, has caused, and will continue to cause, serious lesions and dislocations of agriculture and industry. Senator Borah speaks words of truth and soberness. As he says, even if the strikes were all settled at once "still the damage, the injury to business, and the disturbing effect upon business would be very great. The coming Winter at the very best is to try the patience and the courage and the patriotism of our people—the whole industrial world, capital and labor alike. Nothing can prevent heavy losses to the farmers, fruit growers and potato growers of the West by reason of the difficulty superimposed in getting cars to move their crops, especially such crops as fruit and potatoes. In the face of these conditions for Congress to deliberately add an indebtedness or obligation of the Government ranging all the way from four or four and a half to five billion dollars is a reckless and shameless disregard of those interests which we are here to protect."

Correspondence

AGAIN THE TRAMS

Editor, THE CHINA PRESS

Dear Sir.—It is for the sake of public safety that I write this correspondence. About 11:40 a.m. yesterday, I boarded Tram Car B 183 on The Bund. As the car reached the corner of Honan Road, about ten first-class passengers (all Chinese) tried to descend from the car. Before two of these passengers had succeeded in getting off, and before any passengers had an opportunity to get on, the conductor rang the bell for the car to be started. The consequence was that these two passengers were forced to risk their personal safety by getting off while the car was in motion.

If the Tramway Company permits its employes to disregard the safety of passengers in substance, why does it not also disregard it in form by replacing the advice "Safety first, always wait till the car stops" by "Safety last, always get on or off before the car stops?"

Yours faithfully,
PHILANTHROPIST.

Sept. 21, 1922.

WORK FOR THE POLICE

Editor, THE CHINA PRESS

Dear Sir.—I hold no brief for Bootleggers, or any of their kidney. But it is amusing to me to hear the "Big Tirade" the newspapers are putting up about spurious liquors all of a sudden, when to my actual knowledge this trade has been going on for years in this model settlement. Allegeu three star Hennessy brandy has been sold at Taels 4.00 per case. Now if the authorities want to stop this kind of business, let them go to all Wine and Spirit Merchants (importers of foreign liquors) and get them to give the correct proof of which their distillers send them the whiskies, etcetera. Then let the police take alcoholometers and go to all hotels, bars, and etc., and demand the bar-keeper in charge to produce at once any bottle of any brand and same can be tested at once. Surely the agents of all honest brands would concur in this. Enclosing my card. I remain, Yours sincerely,

AN OLD SOAK.

Sept. 20, 1922.

Up To Sir Arthur Conan Doyle Again

Sir Arthur Conan Doyle may be expected to take notice in his own way of the finding of the learned doctors of the Sorbonne that there is no such element as ectoplasm. At least, it is given out that they have failed to find it, although spiritualistic theory maintains it is so manifest that it is sometimes visible to the naked eye—provided it is the right kind of an eye—and has frequently been photographed.

Ectoplasm, if we understand Sir Arthur, is a sort of nimbus or luminous mist that surrounds or is a part of our material bodies. Perhaps not of all bodies, because all are not fitted to receive it or to throw it out, whichever way it is acquired. Worldly, materialistic persons do not have it; we should not expect to find it lighting up the scenery around a politician, for example, or accompanying the steps of any person whose mind was preoccupied with the grosser sort of thoughts. Ectoplasm breaks out, if that is the scientific expression, mostly on mediums who are bathed in it all the time. Persons with low groping thoughts cannot see it, and while we hesitate to draw a conclusion in the case of the learned doctors of the Sorbonne, the fact remains that they haven't been able to see it.

Ectoplasm is heralded as a new discovery, but we imagine it is only the name that is new. Our old friend Cellini had a pronounced case of it, and records the fact himself, although he didn't know the name of it. He believed himself to be accompanied by spirits who looked out for him, and Cellini needed looking out for if ever a man did. He records that his friends frequently observed a sort of nimbus or halo around his head and he says that when the sun was shining just right he could himself see the shadow of it on the ground. This undoubtedly was ectoplasm. In Cellini's case it was a possession of doubtful value to our mind, for believing himself to be under supernatural protection he came frequently in conflict with the local mundane authorities, and spent more time in jail than most persons would regard as necessary to happiness. If he had had less ectoplasm and more horse sense he would have avoided much trouble.

Perhaps it is this same endowment that has made the lives of many modern mediums so stormy. Those of them at least who have regarded ectoplasm as a commercial asset have had a good deal of trouble with it. People couldn't see it, so to speak, and when pressed the mediums haven't been able to show it. This has led to annoyance on both sides and even to demands, by hasty persons, for their money back. If the Sorbonne doctors had been able to see it it might have helped; the ordinary man might then have listened when told the trouble was with his own eyes. But if scientists report their failure it can only tend to confirm the conviction of ordinary mortals who have strained their eyes that the thing simply isn't there.

Still, until Sir Arthur is heard from, judgment ought to be suspended. The Sorbonne has made its mistakes before and doubtless will admit its error if Sir Arthur can demonstrate it, say by measuring and weighing a piece of ectoplasm and exhibiting it in a glass tube.

Commonsense On Europe's Debts To U.S.

(New York World)

When Senator McCumber says bluntly that the U. S. is going to collect all its debts, it is certain that he has never given a half hour's study to the question.

Exclusive of private debts owed by Europe to America, the obligations come to about $12,000,000,000. Eighteen different countries owe the debt to us. Of these the Senator can safely dismiss from his calculations at least thirteen, including Russia, Poland, Austria, Roumania, Serbia. If he collected from the five more or less solvent countries which are left he would have to collect $11,500,000,000.

Has the Senator any conception of what such a sum of money means? It is hard to conceive it, but a few comparisons made by Mr. John F. Sinclair may help. This European debt, for example, is $400,000,000 more than the total assessed valuation in 1921 of the real estate in New York, Connecticut, Maine, Rhode Island, Vermont, Maryland, Minnesota, Iowa, North Dakota, South Dakota and Nebraska. The total cost of the schools in the forty largest cities in the United States in 1921 would consume only about four months interest on this debt.

How does the Senator imagine that such wealth can be transferred from Europe to the United States? It cannot be sent by check or by cable or by wireless. It will have to come in ships. What is to come to us in ships to pay these twelve billions? When the Senator has answered that question he will have got to the heart of this matter.

What is to come to us in ships as payment from Europe? One thing that might come, conceivably, is gold. But the Senator does not expect twelve billions of gold. He does not expect it, because if all the gold reserves of all eighteen debtors were shipped here they would not cover 16 percent of the debt. If these eighteen countries secured all the gold coined since Columbus discovered America which is not already in America, they could not pay us in full.

The debts cannot be paid in gold. The only other way, then, is in goods. The debts were built up by our shipping munitions and food to Europe. They can be paid only by Europe's shipping back to us goods of equal value. As high protectionists we ask Senator McCumber and his colleagues to ponder this fact: If Europe is to pay the interest and sinking fund to discharge the debt in forty years the best calculation available is that we must import from Europe $1,000,000,000 annually in excess of our exports. That will be to pay the past debt. If Europe is to keep on buying our goods she will have to increase this unfavorable balance of trade in accordance.

In other words, in order to carry out Senator McCumber's idea we would have to stop our exports to Europe entirely for about forty years and accept about a billion dollars imports annually to settle these debts.

We then ask Senator McCumber to consider the effect on the farmer of stopping exports. We ask him to consider the effect on the manufacturer of accepting one billion imports after the export trade had been stopped. The thing becomes fantastic.

The World does not believe that the American people have any intention of ruining themselves in this way. The World believes that as the facts in the case are understood the American people will be quite prepared to separate the collectible from the uncollectible debts and to negotiate with the whole mass of them for a general settlement.

The World does not believe that America will demand payments which create an annual excess of imports over exports of $1,000,000,000. Nor does it believe that when the American people study the economic situation of Europe they will believe that any such exporting stunt is humanly possible.

They will study the trade balances before the war of the debtors and creditors—France, Italy, Germany, the United Kingdom and America. They will see that all the European debtors imported more goods than they exported. They will see that America alone exported more than she imported. They will ask themselves how this can be so violently reversed that America becomes the large importer and Europe the great exporter in spite of Mr. McCumber's tariff. For that tariff is aimed to stop America from importing the little she has imported before Europe started to pay her debts.

For the author of the McCumber tariff to demand payment in full is the completest exhibition of economic ignorance that could possibly be imagined. It could not be more complete. To devise a tariff to stop imports and in the same breath to demand payments which must be made by imports is like squaring the circle or trying to go both east and west at the same time.

Hideous "Main Street"

(From The Chicago Herald)

We spend our young years grubbing for dollars, and when we succeed in making our pile, if we do succeed, we are too tired and too untrained to enjoy it.

Some day we will wake up to the fact that beauty pays.

We need not abandon work and go to loafing. It is just as necessary, and adds just as much to the rational enjoyment of life, to have a beautiful place to work in as to have a beautiful place to play in, or to worship in.

The main trouble with Main street is that it is hideous.

The store fronts are not attractive. The men who put them up did not care how they looked. All they wanted was a place, secure from the rain, where they could sell hardware and groceries. And all the people want that visit them is a place where they can get a stove or a can of corn.

That is why the young people "hate the place." That is why they leave it as soon as they are old enough. At least, that is a very important contributing reason.

That is also one of the reasons why we have so little civic pride. We have little to be proud of.

We ought to realise that even from the standpoint of efficiency people do better work when they are in conducive surroundings.

A cash register company at Dayton has no strikes. It has never had any labor troubles. If you visit the place you will see why.

The factories are beautiful. They are largely of glass. The workers work amid beautiful surroundings. They are not only well paid, they are treated as human beings. All around the work buildings, engine houses, stables and warehouses are beds of flowers, smooth lawns, graveled roads. And a vast park is at hand where the workers can picnic.

Go to another factory, one that I have especially in mind, where they manufacture steel products. Its huge, blackened walls look like a state prison. The fire and smoke belching from its chimneys look like hell. The homes of the work people are hovels. There are no flowers, no trees, no lawns; only dirty, cluttered yards, goats and battered tomato cans. They have plenty of labor troubles there.

This, of course, does not mean that you can satisfy laborers by giving them posies, but it does mean that beauty helps.

For the company that provides beauty shows that it realises that it is dealing with human beings, and not with cattle.

WHAT WOMAN NEEDS

above all things are Health and Happiness. These are the true Woman's Rights! Every woman is entitled to them. Dame Nature intended her daughters to be healthy in body and happy in mind. Any woman conscious of pain and trouble which she feels might be removed will be well advised to make careful enquiry as to the cause. If it is found—as indeed is frequently the case—that a disordered digestion is giving rise to ill-health and the consequent depression of spirits, medicine of the right sort will doubtless soon set matters right. But it must be of the right sort. Beecham's Pills are to be strongly recommended for woman's needs. They may be taken with perfect confidence for derangements of the digestive organs, including such unpleasant ailments as sick-headache, biliousness, flatulence, constipation and the insitude and worries often incidental to her sex. Every woman may get nearer to Health and Happiness by using

Look In The Northeast For Another Universe

BY GARRETT P. SERVISS

Eminent Astronomer and Authority on Subjects of Scientific Interest.

According to a new estimate of the distance of the Andromeda nebula, which can be seen rising in the northeast early in the evening at this time of the year, that wonderful object may be another universe of stars as large as our galaxy, but situated so far away that it appears to our eyes only as a small, elliptical, faintly glowing speck in the heavens, no brighter than a sixth magnitude star.

The distance computed for this object, by a new method, and published in the Astrophysical Journal by E. Oepik, is no less than 450,000 parsecs. The parsec is the standard of stellar distance now generally used by astronomers, and is equal, in round numbers, to 19,000,000,000,000, i.e., nineteen million-million, or nineteen trillion, miles.

Multiplying the value of one parsec by 450,000 we get the stupendous number 8,550,000,000,000,000 or eight quintillion five hundred and fifty quadrillion miles as the distance across the gap of space that separates us from the so-called Andromeda nebula, an object that looks lighter than the tiniest thistledown, but, according to Oepik's estimate, really weighs, in the aggregate, four thousand five hundred million times as much as our sun, which itself is 330,000 times as heavy as the earth!

Reckoned in light-years, the distance of that other universe than ours appears even more amazing. A light-year, i.e., the distance that light travels in a year, is about 5,860,000,000,000 miles. Dividing the distance of the Andromeda nebula by this, we get about 1,459,000 as the number of light years involved. In other words, a wave of light, the speediest thing we know, requires nearly a million and a half of years to make the passage!

That distant universe glimmering beyond the stars of what we call the constellation Andromeda, may, for all that we can tell, have been destroyed a million years before the earliest type of man appeared on this earth, and yet the last wave of light that left the expiring suns are still on their way to us in the vast of space, and will not reach the earth with their closing message for thousands of years yet to come.

If it be true that the Andromeda nebula is another universe of stars bearing a general resemblance to the one in the midst of which we dwell, it is logical to conclude that, in the immensity of surrounding space, there are many more such "universe." And, once started, it is as difficult to fix a limit to their number as to assume that the number is infinite.

If we do reject the idea of an infinite number of such stellar aggregations scattered around us, then, Einstein to the contrary notwithstanding, we must, in order to satisfy the mind, assume that beyond the space which they occupy there is either infinite emptiness, or some other form of matter. What is gained by supposing space to curve in upon itself, so that it has an essential "sphericity," and is therefore, limited? Such a hypothesis is only the result of a kind of mathematical reasoning which professedly rejects physical, or sensual, bases and certification.

We shall never solve the secret of the physical universe by metaphysical methods. Like Archimedes, we have got to have a place to put our fulcrum before our lever will work. The lever, the fulcrum, the ground to stand on and the force applied are all physical. This is a physical universe that we see around us, and the Andromeda nebula is either a distant part of the same or it is another, no less physical, universe. In all that immensity of space which separates it from our galaxy there is not the slightest indication, yet found, of an interruption of the physical laws that govern immediately around the earth. The light-waves that have traveled eight quintillions of miles tell of no interference, and are strictly akin to those that play over the mere step that divides the earth from the sun, and which they traverse in eight minutes.

Not only the composition of the Andromeda universe appears to be the same as that of ours, but the events occurring in it are also evidently of the same nature. In 1885 a temporary star blazed out in the Andromeda nebula (or less probably between it and us).

The light of that star equaled the light of the whole nebula, or, if it is a separate universe, then that one new star in it shone with a brightness as great as the combined light of all its millions of permanent stars! There have been many outbreaks of new stars in our system, but perhaps none as brilliant as that. But, when the star faded away, the familiar features of the nebula appeared unchanged. If we could go there, we should see new constellations, but only as the traveller in foreign lands meets new flowers.

More Truth Than Poetry

HIS GOOD TRAIT

By S. E. Kiser

He was not averse to taking
Profits that were most unfair;
He was very fond of shaking
Down a sucker, here and there;
He considered it delightful
To wear sporty looking togs;
He was sleek and sly and spiteful.
But he had a love for dogs.

He had won with extra aces,
Deftly added to his hand;
He was fond of slippery places,
Where the wicked wished to stand;
He had broken statutes—many—
He was far from being straight;
He would steal a blind man's penny,
But his love for dogs was great.

He was not above betraying
And trust, for selfish gain,
And was never slow in saying
Things that might give others pain;
He could see a child mistreated,
And pass on, with no regret,
But with friendly words he greeted
Every dog he ever met.

He had fingers that were handy
At the trick of picking locks;
He would rob a babe of candy
Or a beggar of his socks;
There was nothing one might glance at
In the sinful catalogues
That he wouldn't take a chance at,
But he loved all kinds of dogs.

Equilibrium Near In Rubber Industry

(Reuter's Service)

London, Sept. 19.—Dealing with the question of rubber restriction the Times points out that the equilibrium of supply and demand appears already to be established. The increase of 48,672 tons in rubber shipments from the East during the first seven months of 1922, as compared with corresponding period of last year, is entirely due to the fact that the United States imports for the same period were 155,000 tons as compared with 81,000 in 1921. The way to prevent part of the present planted area going out of cultivation permanently would be not to impose an export duty but to increase the uses of rubber. The consumer of rubber in many cases is not receiving the benefit of the low price and it is the business of the producer to secure him better terms.

LANDMANDS BANK

(Reuter's Service)

Copenhagen, Sept. 19.—The Minister of Commerce has introduced a bill authorising the Government to subscribe 40,000,000 kronen towards Landmands Bank preference shares, while the Minister of Justice has introduced a bill to appoint a commission to inqure into the Bank's affairs.

15% Reduction Off Former Prices
OF
Chung Hwa Shoes

Black Pat. Formerly $11.00 now $9.50

We have reduced our prices according to the cost of raw materials from America, and not because our shoes are old stock and the materials have lost the life and flexibility so essential in good shoes.

Our reductions are therefore genuine and permanent, not being made temporary to clear off old stock.

This is GOOD NEWS for YOU,

if you desire to buy New Shoes for Fall and Winter wear.

Please Call and Inspect our stock.

Weather Report

Sept. 20.—The typhoon of the Macclesfields starts again towards N.-W. or N.-N.-W, threatening the coast between Hainan and Hongkong.

The one of the Pacific moves away between the Bonin and Tokio.

Hard cyclonic winds in the typhoons.

Rough weather in the Formosa Strait.

Northerly breezes to the N. of the Saddles.

Fine day in N. and Central China; overcast in the South; showers at Hongkong.

Sept. 21.—The pressure decreases a little, but keeps above the normal value. Cloudy, cool and very fine weather. Constant and moderate N.-N.-W. breezes.

'Supers' Have Parts In Political Row In Kiangsi Province

(China Press Correspondence)

Nanchang, Sept. 16.—An army of about one hundred men, paid, it is said, 40 coppers apiece, paraded the streets today carrying banners demanding the resignation of Acting Governor Ho, who took over the seals upon the urgent petition of local organisations when Tuchun Chen and Governor Yang fled last June.

Yesterday the newspaper men were "forced" to sign their names to a telegram urging Peking to appoint Li Ting-yu Civil Governor of Kiangsi. Former henchmen of Governor Chen are using their influence to make the call of Li appear a popular demand and if General Tsai remains in Kiangsi it is quite probable that Li will become governor. It is inconvenient to have a Kiangsi patriot watch the sources of revenue at at time like ths.

Li Ting-yu of Tientsin, younger brother of the suicide-Tuchun Li Hsun, is said to be a "sworn brother" of General Tsai and it is known that they are old time friends. While Li Hsun was tuchun of Kiangsi the younger Li was defense commissioner of the southern section of the province with headquarters at Kanchow. He was not unpopular and the sentiment against him at this time is due more to the fact that he is not a Kiangsi man than to anything else.

Hsieh Yuan-han, appointed Civil Governor by both Li Yuan-hung and Sun Yat-sen has tried twice to enter the city but has been intercepted each time by the military who seem disinclined to lend an ear to the popular cry for native officials and this in spite of the word sent down from Peking.

Rumors of fighting about Kanchow and Fuchow have been less persistent recently and the position of Tsai Chen-hsun seems more secure than at any time in the past. He has ceased to be "sick" and has appeared upon the street.

In spite of the huge sums paid over to the authorities by the people no schools are able to open except those entirely independent of provincial aid and the two or three private schools which have opened find less than half of their students returning and almost no new students in spite of the fact that the big government shcools are not reopening.

Everything in the province is at a standstill and has been so since the excitement began on the Dragon Boat Festival last May. No one dares predict the future now, but the only prospects are that there will be no interference with the ravages of the northerners for some time to come. All important families who have been able to do so have left the city and while most shops are open the wares on display are few and cheap.

Baker's Friends Resent Slurs In New Brittannica

(China Press Service)

New York, Sept. 12.—Friends of Newton D. Baker, United States Secretary of War under President Wilson, resent the slur cast on the former Cabinet member by the newest edition of the Encyclopaedia Britannica, which characterises Mr. Baker as a pacifist and an American politician whose career as Secretary of War is "widely condemned in the United States as lacking energy, foresight and ability." General James J. Pershing, Chief of Staff of the American army and former Commander-in-Chief of the American Expeditionary Forces in France, is among those protesting to the editor of the encyclopaedia.

Bandits Get Big Sum At Gold Mine

(Reuter's Pacific Service)

Peking, Sept. 18.—The Consul at Heiho has wired the Chinese Government reporting that the Jui Feng Gold Refinery was completely raided by a band of robbers reported to number about 2,000.

Many of the laborers and two accountants were killed and about a $100,000 worth of gold in residues and ingots carried away.

British Consul Pay Mixed Court Visit

Mr. S. Barton, British Consul-General, paid a visit to the International Mixed Court during court vesterday. The American Assessor, Mr. Jacobs, and Mr. King, were on the bench, as their turns officiating are on Tuesdays and Thursdays.

It was the first call the Consul-General had paid to the Court since his appointment to Shanghai.

TRADE IN JAPAN STRIKES SLUMP IN MONTH OF AUGUST

New commercial and industrial undertakings and extensions, one of the barometers for the business world, fell off in August in keeping with the general trend of commerce and finance, according to Japanese Government reports. The number of corporations in August was 60, or 28 less than in July and 80 less than in August, 1921.

No new partnerships were incorporated during the month, representing a decrease of 12 on July and of 50 on August, 1921, while new extensions show a falling off by 13 on July and by 25 on August, 1921. According to the Mitsui Bank, in such lines as cotton spinning, fishing, insurance, and warehouse lines there were no additional enterprises.

Capitalisation of new incorporations reached Y54,430,000, while additional capitalisation of old companies amounted to Y76,705,500. A complete table follows:

	New corporations
August capital	Y54,430,000
Compared with July.	2,290,000
Compared with August, 1921	142,080,000
Compared with August, 1920	37,685,000
	Extensions
August capital	Y76,705,000
Compared with July.	21,130,500
Compared with August, 1921	44,513,000
Compared with August, 1920	16,604,500

During August 288 joint stock companies and 550 partnerships were in liquidation, according to the Mitsui Bank. Authorised capital involved totaled Y114,254,625, of which Y52,229,062 was paid up.

2,000,000 Victims In Russ Famine

(Reuter's Service)

Geneva, Sept. 20.—At the International Congress for Russian Relief, which is attended by delegates from over thirty Governments, a report was read stating that up to August 15 1,400 000 persons in Russia had been assisted, and 60,000 tons of seed had been delivered to the Soviet. There had been 2,000,000 deaths from famine.

American Sailors Buried In North

Remains of eight American sailors from the U. S. S. New Orleans, who were drowned several months ago when the small boat they were crossing Amur bay in capsized, here been recovered and buried in the Pokrovsky cemetery. at Vladivostok.

The sailors were crossing the bay when a sudden squall came up and upset the boat. Details of the accident were several days in reaching Shanghai and a complete list of the men's names has never been made public.

Passengers Departed
